of case studies *Women's Places Architecture and Design 1860-1960* examines in detail the professional and domestic spaces created by women who had money and the opportunity to achieve their ideal. Set against a background of accepted notions of modernity relating to design and architecture of the late 19th and early 20th centuries, this book provides a fascinating insight into women's social aspirations and identities. It offers new information and new interpretations in the study of gender, material culture, and the built environment in the period 1860-1960. **Women Architects at Work** Mary Anne

Hunting, Kevin D. Murphy, 2025-02-18 A comprehensive history of the women architects who left their enduring mark on American Modernism. In the decades preceding World War II, professional architecture schools enrolled increasing numbers of women, but career success did not come easily. *Women Architects at Work* tells the stories of the resilient and resourceful women who surmounted barriers of sexism, racism, and classism to take on crucial roles in the establishment and growth of Modernism across the United States. Mary Anne Hunting and Kevin D. Murphy describe how the Cambridge School of Architecture and Landscape Architecture in Massachusetts evolved for the professional education of women between 1916 and 1942. While alumnae such as Eleanor Agnes Raymond, Victorine du Pont Homsey, and Sarah Pillsbury Harkness achieved some notoriety, others like Elizabeth Ann Campbell Knapp and Louisa Vaughan Conrad have been largely absent from histories of Modernism. Hunting and Murphy describe how these innovative practitioners capitalized on social, educational, and professional ties to achieve success and used architecture to address social concerns, including how modernist ideas could engage with community and the environment. Some joined women-led architectural firms, while others partnered with men or contributed to Modernism as retailers of household furnishings, writers, educators, photographers, and designers, or fine artists. With stunning illustrations, *Women Architects at Work* offers new histories of recognized figures while recovering the stories of previously unsung women, all of whom contributed to the modernization of American architecture and design. *HOUSE IN GOOD TASTE* ELSIE DE.
