The House Of Magical Sounds:

Sound effects Laura Jayne Wright,2023-06-27 This book shows that the sounds of the early modern stage do not only signify but are also significant Sounds are weighted with meaning offering a complex system of allusions Playwrights such as Jonson and Shakespeare developed increasingly experimental soundscapes from the storms of King Lear 1605 and Pericles 1607 to the explosive laboratory of The Alchemist 1610 Yet sound is dependent on the subjectivity of listeners this book is conscious of the complex relationship between sound as made and sound as heard Sound effects should not resound from scene to scene without examination any more than a pun can be reshaped in dialogue without acknowledgement of its shifting connotations This book listens to sound as a rhetorical device able to penetrate the ears and persuade the mind to influence and to affect *From Russia to Love* Eva Chapman,2012-09-04 The great violinist Viktoria Mullova's story is one of striking contrasts and huge challenges As a young musician she was a bright star in the Soviet musical firmament but she stunned the world when she escaped the KGB and fled to the West leaving behind her family friends and all she knew And in her flight from Finland Viktoria also abandoned on her hotel bed the priceless Stradivarius she'd played during her triumph at the International Tchaikovsky Competition From Russia to Love recounts the journey of a remarkable woman Armed only with her violin bow and her exceptional talent Viktoria went on to conquer the West As her new life unfolded first in America and then in Europe Viktoria met fellow exiles Nureyev and Rostropovich fell in love with conductor Claudio Abbado and learned to throw off the shackles of her Russian training Granted unparalleled access to her subject Eva Maria Chapman paints an intimate truthful and sensitive portrait of a unique artist
