Forest of Tigers Annu Jalais,2014-06-03 Acclaimed for its unique ecosystem and Royal Bengal tigers the mangrove islands that comprise the Sundarbans area of the Bengal delta are the setting for this pioneering anthropological work The key question that the author explores is what do tigers mean for the islanders of the Sundarbans The diverse origins and current occupations of the local population produce different answers to this question but for all the tiger question is a significant social marker Far more than through caste tribe or religion the Sundarbans islanders articulate their social

locations and interactions by reference to the non human world the forest and its terrifying protagonist the man eating tiger  
The book combines rich ethnography on a little known region with contemporary theoretical insights to provide a new frame  
of reference to understand social relations in the Indian subcontinent It will be of interest to scholars and students of
