The Human Person in Theology and Psychology James R. Beck, Bruce A. Demarest, 2005 A new analysis of human nature and behavior in biblical perspective by two evangelical experts This comprehensive textbook discusses four key aspects of the human person by exploring the relationship between origin and destiny substance and identity function and behavior and relationships and community The authors argue that an integrated approach of theology and psychology not only enhances our understanding of what it means to be human but is also key to that understanding *The Naked State of Human Being* Luis Ivan Martinez-Toledo, 2016-04-21 This book explains the image of nakedness *gymnos* taken by Paul in the Corinthian correspondence to refer to the state of human being during death Through an academic approach but simple language the author explains the biblical monist understanding of human being He takes the biblical experience of death and resurrection to point out his arguments This book uncovers the ancient problem of the continuation of personal identity from life prior to death on to resurrection It also provides a fresh biblical approach from an anthropological and biblical perspective to the problem of what being human really is Those who enjoy traveling through the Bible with an open mind and warm heart will find in this book a good experience Human Being Jocelyn Bryan, 2016-06-30 Drawing on recent research this book provides a psychological perspective on key aspects of human nature and behaviour and reflects on the issues this raises for theology and ministry Human Person in Science and Theology Niels Henrik Gregersen, Willem Drees, Ulf Görman, 2000-01-01 The dialogue between science and theology is no longer confined to discussing theology physics and biology but as these essays make clear sociology psychology neuroscience are now open for discussions between theologians and scientists **In the Fellowship of His Suffering** Elahe Hessamfar, 2014-09-25 Schizophrenia is by many accounts the most devastating illness of our time In this book Elahe Hessamfar uses her personal encounter with her daughter's illness to bring the reader to experience the pain and anguish of those who suffer so intensely She candidly discusses the gripping and dark realities her family has faced in the midst of this journey and exposes that the ride isn't easy but it can be fruitful and purposeful and it can be a journey of joy and peace if understood from the intended perspective This is a fascinating and deeply theological portrayal of madness under the mighty hand of God It challenges and awakens the reader to a heightened awareness about self community pain brokenness sin grace and redemption This is the first truly biblically based theological interpretation of madness in conversation with psychiatry and social sciences Hessamfar passionately discusses the shortcomings of our current medical model of mental illness and directs the reader's attention to the mistreatment of those the medical community labels with schizophrenia She argues that not only is schizophrenia not pathological but it touches on the most fundamental fragilities of the human soul and hence it is a critical pastoral issue Hessamfar offers tangible inspiring and life changing solutions for those dealing with this most elusive and mysterious phenomenon solutions that would bring hope and healing to the hopeless people chained in the abyss of madness *T&T Clark Handbook of Christian Theology and*

**Conflict in Christology** John Stewart Lawton, 2010-08-01

**From Truth and truth** Francis

Etheredge, 2016-04-26 What emerges in this second book of the trilogy is that the very ground and content of experience is richer than what can be reduced to a particular account of it. As such, dialogue develops from the natural diversity of what is of faith and what is of reason. Neither faith nor reason, however, originates from experience; rather, both are witnessed in experience. In other words, taking up questions about the nature of man, whether philosophically, psychologically, or in terms of social structures, manifests both a variety of points of departure and, at the same time, the manifold conversations that are possible in the field of culture. Focusing particularly on the work of St. John Paul II, the first essay examines the answer of reason and the answer of faith to the same question: What is man? Conversion too entails an unexpected relationship to natural truth, which in its own way is both adequate and inadequate to salvation. Communication, as it were, runs throughout these essays; however, in particular, there is a need to enrich our human understanding of the process of coming to ourselves with the insights of spiritual discernment. Axiomatically, however, it is possible to say that just as we come to exist through a relationship to others, so our healing and holiness are manifest through our relationship to others in the Other. Furthermore, while it is ultimately true that we exist as individually rooted in the social structure of our origin and the times in which we live, we need to critically participate in the dialogue which identifies our common reality and not live our lives covered in psycho-social labels of one kind or another. As a whole, then, there is an incomparable range and depth to dialogue. Indeed, given the many critical situations in the world, it is increasingly indispensable and essential that humanity choose the incredible wealth of dialogue in contrast to the possibility of a polarised and conflictual structure between people and peoples.
