The Routledge Handbook of Animal Ethics Bob Fischer, 2019-12-06 There isn't one conversation about animal ethics Instead there are several important ones that are scattered across many disciplines This volume both surveys the field of animal ethics and draws professional philosophers graduate students and undergraduates more deeply into the discussions that are happening outside of philosophy departments To that end the volume contains more nonphilosophers than philosophers explicitly inviting scholars from other fields such as animal science ecology economics psychology law environmental science and applied biology among others to bring their own disciplinary resources to bear on matters that affect animals The Routledge Handbook of Animal Ethics is composed of 44 chapters all appearing in print here for the first time and organized into the following six sections I Thinking About Animals II Animal Agriculture and Hunting III Animal Research and Genetic Engineering IV Companion Animals V Wild Animals Conservation Management and Ethics VI Animal Activism The chapters are brief and they have been written in a way that is accessible to serious undergraduate students regardless of their field of study The volume covers everything from animal cognition to the state of current fisheries from

genetic modification to intersection animal activism It is a resource designed for anyone interested in the moral issues that emerge from human interactions with animals

Handbook of Halal Food Production Mian N. Riaz, Muhammad M. Chaudry, 2018-09-03 Until now books addressing Halal issues have focused on helping Muslim consumers decide what to eat and what to avoid among products currently on the market There was no resource that the food industry could refer to that provided the guidelines necessary to meet the Halal requirements of Muslim consumers in the United States and abroad Handbook of Halal Food Production answers this need by summarizing the fundamentals of Halal food production serving as a valuable reference for food scientists food manufacturers and other food industry professionals This text delivers a wealth of information about Halal food guidelines for food production domestic and international food markets and Halal certification Among chapters that cover production requirements for specific foods such as meat and poultry fish and seafood and dairy products there are other chapters that address global Halal economy Muslim demography and global Halal trade and comparisons among Kosher Halal and vegetarian In addition the book presents Halal food laws and regulations HACCP and Halal and general guidelines for Halal food Production For persons targeting the Halal food market for the first time this book is particularly valuable providing understanding of how to properly select process and deliver foods In light of the increasing worldwide demand for Halal food service branded packaged food and direct marketed items this volume is more than an expert academic resource it is a beneficial tool for developing new and promising revenue streams Both editors are food scientists who have practical experience in Halal food requirements and Halal certification and the contributors are experts in the Halal food industries
