Skateboard Video Duncan McDuie-Ra,2021-09-20 This book is about skateboard video and experimental ways of thinking

about cities It makes a provocative argument to consider skate video as an archive of the city from below Here below has a dual meaning First below refers to an unofficial archive a subaltern history of urban space Second below refers to the angle from which skateboarders and filmers gaze upon capture and consume the city from the ground up Since taking to the streets in the early 1980s skateboarding has been captured on film video tape and digital memory cards edited into consumable forms and circulated around the world Videos are objects amenable to ethnographic analysis while also archiving exercises in urban ethnography by their creators I advocate for taking skate video seriously as a fragile archive of the urban backstage collective memory across time and space creative urban practice urban encounters people to people and people to object s and the globalization of a subculture at once delinquent and magnificent
