Archaeological Sketches in Scotland Thomas Pilkington White,1875 *Architect's Drawings A Selection of Sketches by World Famous Architects through History* ,2025-08-31 *Architect's Drawings A Selection of Sketches by Architects Through History* is a fascinating journey into the role of sketches in the design process From the Renaissance to contemporary practice this book explores how architects have used drawings not just as technical tools but as instruments of imagination inspiration and communication *History of Middlesex county, Connecticut, with biographical sketches of its prominent men* ,1884-01-01 **The Sketch** ,1898 *A Sketch of the Tobacco Interests in North Carolina: An Account of the Culture, Handling and Manufacture of the Staple* J. An historical sketch of the Provincial Dialects of England, illustrated by numerous examples afterwards HALLIWELL-PHILLIPPS HALLIWELL (James Orchard),1847 *Art as Metaphor* Aron D. Mazel,George Nash,Clive Waddington,2007 Enigmatic esoteric and fascinating the rock art of the British Isles has for a long time been a well kept secret This volume brings together a carefully selected collection of papers reporting on recent discoveries and regional surveys covering British prehistoric rock art from over 10 000 years ago **Abstractions Based on Circles: Papers on prehistoric rock art presented to Stan Beckensall on his 90th birthday** Paul Frodsham,Kate Sharpe,2022-09-22 Stan Beckensall is renowned for his work done on an entirely amateur basis discovering recording and interpreting Atlantic rock art in his home county of Northumberland and beyond Presented on his 90th birthday this diverse and stimulating collection of papers celebrates his crucial contribution to rock art studies and looks to the future **Catalogue of the Pictures in the Art Gallery in Montpelier** Wood Gallery of Art, Montpelier, Vt,1913 *Biographical Sketches of the Graduates of Yale College: May 1745-May 1763* Franklin Bowditch Dexter,1896 **Open-Air Rock-Art Conservation and Management** Timothy Darvill,Antonio Pedro Batarida Fernandes,2014-06-20 While much has been achieved in understanding and managing weather effects and erosion phenomena affecting ancient imagery within the relatively protected environments of caves and rock shelters the same cannot be said of rock art panels situated in the open air Despite the fact that the number of known sites has risen dramatically in recent decades there are few examples in which the weathering and erosion dynamics are under investigation with a view to developing proposals to mitigate the impact of natural and cultural processes Most of the work being done in different parts of the world appears to be ad hoc with minimal communication on such matters between teams and with the wider archaeological community This richly illustrated book evaluates rock art conservation in an holistic way bringing together researchers from across the world to share experiences of work in progress or recently completed The chapters focus on a series of key themes documentation projects and resource assessments the identification and impact

assessment of weathering erosion processes at work in open air rock art sites the practicalities of potential or implemented conservation interventions experimentation and monitoring programs and general management issues connected with public presentation and the demands of ongoing research investigations Consideration is given to the conservation of open air rock art imagery from many periods and cultural traditions across the Old and New Worlds This timely volume will be of interest to conservators managers and researchers dealing with aesthetic and ethical issues as well as technical and practical matters regarding the conservation of open air rock art sites
