Turner,2009-09-10 This book examines Muslims in Singapore analysing their habits practices and dispositions towards everyday life and also their role within the broader framework of the secularist Singapore state and the cultural dominance of its Chinese elite who are predominantly Buddhist and Christian Singapore has a highly unusual approach to issues of religious diversity and multiculturalism adopting a policy of deliberately managing religions including Islam in an attempt to achieve orderly and harmonious relations between different racial and religious groups This has encompassed implicit and explicit policies of containment and enclavement of Muslims and also the more positive policy of upgrading Muslims through paternalist strategies of education training and improvement including the modernisation of madrassah education in both content and orientation This book examines how this system has operated in practice and evaluates its successes and failures In particular it explores the attitudes and reactions of Muslims themselves across all spheres of everyday life including dining and maintaining halal vigilance education and dress code and practices of courtship sex and marriage It also considers the impact of wider international developments including 9 11 fear of terrorism and the associated stigmatization of Muslims and developments within Southeast Asia such as the Jemaah Islamiah terrorist attacks and the Islamization of Malaysia and Indonesia This study has more general implications for political strategies and public policies in multicultural societies that are deeply divided along ethno religious lines **Colonial Reports--annual** ,1938 AgExporter ,1989 **The**

Evolution of Strategic Foresight Tuomo Kuosa,2016-03-16 Embracing the theory and practice of strategic foresight and illuminating how different schools of thought regard its role in policy making Tuomo Kuosa describes how something not traditionally considered an independent discipline is steadily becoming one In The Evolution of Strategic Foresight he explains how the practice of strategic foresight has long been closely associated with the military and politics Linking strategic thinking more broadly to futurology however it is quite new Since strategic foresight refers to the practice of generating analyses of alternative futures and strategies based on available intelligence and foreknowledge the practice can and should be applied to companies business sectors national and trans national agencies of all descriptions and to all aspects of public policy making The author explains its practice in terms of structure process and knowledge domains and examines its methodologies and systems along with how strategic foresight can be used to produce better knowledge and be more effectively linked to policy making Using examples from 30 different countries and with access to interviews and workshops involving key experts The Evolution of Strategic Foresight will be valuable to scholars educators students engaged in strategy and future studies long range public policy and urban planners analysts risk assessment experts and consultants managers and decision makers in many organisations public and private **Animal Slaughter and Handling**

The Directory and Chronicle for China, Japan, Corea, Indo-China, Straits Settlements, Malay States, Siam, Netherlands India, Borneo, the Philippines, and Etc ,1905 **Halal Matters** Florence Bergeaud-Blackler,Johan Fischer,John Lever,2015-07-16 In today s globalized world halal meaning permissible or lawful is about more than food Politics power and ethics all play a role in the halal industry in setting new standards for production trade consumption and regulation The question of how modern halal markets are constituted is increasingly important and complex Written from a unique interdisciplinary global perspective this book demonstrates that as the market for halal products and services is expanding and standardizing it is also fraught with political social and economic contestation and difference The discussion is illustrated by rich ethnographic case studies from a range of contexts and consideration is given to both Muslim majority and minority societies Halal Matters will be of interest to students and scholars working across the humanities and social sciences including anthropology sociology and religious studies Meat and Poultry Inspection Manual ,1995 **The Confluence of Public and Private International Law** Alex Mills,2009-07-02 A sharp distinction is usually drawn between public international law concerned with the rights and obligations of states with respect to other states and individuals and private international law concerned with issues of jurisdiction applicable law and the recognition and enforcement of foreign judgments in international private law disputes before national courts Through the adoption of an international systemic perspective Dr Alex Mills challenges this distinction by exploring the ways in which norms of public international law shape and are given effect through private international law Based on an analysis of the history of private international law its role in US EU Australian and Canadian federal constitutional law and its relationship with international constitutional law he rejects its conventional characterisation as purely national law He argues instead that private international law effects an international ordering of regulatory authority in private law structured by international principles of justice pluralism and subsidiarity **Surface and Destroy** Michael Sturma,2011-03-25 World War II submariners rarely experienced anything as exhilarating or horrifying as the surface gun attack Between the ocean floor and the rolling whitecaps above submarines patrolled a dark abyss in a fusion of silence shadows and steel firing around eleven thousand torpedoes sinking Japanese men

of war and more than one thousand merchant ships But the anonymity and simplicity of the stealthy torpedo attack hid the savagery of warfare a stark difference from the brutality of the surface gun maneuver As the submarine shot through the surface of the water confined sailors scrambled through the hatches armed with large caliber guns and met the enemy face to face Surface and Destroy The Submarine Gun War in the Pacific reveals the nature of submarine warfare in the Pacific Ocean during World War II and investigates the challenges of facing the enemy on the surface The surface battle amplified the realities of war bringing submariners into close contact with survivors and potential prisoners of war As Japan s larger ships disappeared from the Pacific theater American submarines turned their attention to smaller craft such as patrol boats schooners sampans and junks Some officers refused to attack enemy vessels of questionable value while others attacked reluctantly and tried to minimize casualties Michael Sturma focuses on the submariners reactions and attitudes toward their victims exploring the sailors personal standards of morality and their ability to wage total war Surface and Destroy is a thorough analysis of the submariner experience and the effects of surface attacks on the war in the Pacific offering a compelling study of the battles that became intolerably personal
