Green

Utopias Lisa Garforth,2018-03-15 Environmentalism has relentlessly warned about the dire consequences of abusing and exploiting the planet's natural resources imagining future wastelands of ecological depletion and social chaos But it has also generated rich new ideas about how humans might live better with nature Green Utopias explores these ideas of environmental hope in the post war period from the environmental crisis to the end of nature Using a broad definition of Utopia as it exists in Western policy theory and literature Lisa Garforth explains how its developing entanglement with popular culture and mainstream politics has shaped successive green future visions and initiatives In the face of apocalyptic despairing or indifferent responses to contemporary ecological dilemmas utopias and the utopian method seem more necessary than ever This distinctive reading of green political thought and culture will appeal across the social sciences and humanities to all interested in why green utopias continue to matter in the cultivation of ecological values and the emergence of new forms of human and non human well being

[Play in Utopian and Dystopian Fiction](#) Matthew Leggatt,2025-07-28

Play in Utopian and Dystopian Fiction is a wide ranging and interdisciplinary study of the different forms of play to be found in depictions of radically better and radically worse societies across literary filmic and televisual texts The book sets out to dismantle common myths about the role of play in such fiction by arguing that far from being dull and static utopias are primarily playful and dynamic In contrast in the twentieth and twenty first centuries dystopian fiction has been popularized by reader and audience expectations of spectacular and exciting action but in this book such readings of dystopia are also challenged Accompanying this is a discussion about labor and its role in relation to a future society that might privilege play

over work The book covers texts as diverse as Thomas More's originary 1516 travel narrative Utopia and South Korean Netflix dystopian hit Squid Game 2021 25 It consists of chapters detailing the nature of play in utopian fiction the connection between utopia and stasis dystopian forms of violent and deadly play boring dystopias the absurd in utopian and dystopian fiction and finally the future of play promised by new digital utopias and made possible by videogame technologies [Art in Consumer Culture](#) Grace McQuilten,2017-07-05 Written with beautiful clarity Art in Consumer Culture Mis Design asks the contemporary art world to be honest about the pervasive effects of commodification and the difficulty of staging critique The book examines the collusion of art and design in contemporary artistic practices in order to find avenues of critique in a commercially driven cultural landscape Grace McQuilten focuses on the work of Takashi Murakami Andrea Zittel Adam Kalkin and Vito Acconci four contemporary artists who claim to be working in the field of design rather than the traditional art world McQuilten argues that Zittel Acconci and Kalkin engage with design only to reactivate the critical practice of art in a more direct engagement with capital and conceives of and affirms a future for art outside of the art world as a parasite in the complex beast of late capitalism This book is an important and timely provocation to a cynical and apathetic consumer culture and a call to arms for creative freedom and critical thought [**Rapture Culture**](#) Amy Johnson Frykholm,2004-03-04

In the twinkling of an eye Jesus secretly returns to earth and gathers to him all believers As they are taken to heaven the world they leave behind is plunged into chaos Cars and airplanes crash and people search in vain for loved ones Plagues famine and suffering follow The antichrist emerges to rule the world and to destroy those who oppose him Finally Christ comes again in glory defeats the antichrist and reigns over the earth This apocalyptic scenario is anticipated by millions of Americans These millions have made the Left Behind series novels that depict the rapture and apocalypse perennial bestsellers with over 40 million copies now in print In Rapture Culture Amy Johnson Frykholm explores this remarkable phenomenon seeking to understand why American evangelicals find the idea of the rapture so compelling What is the secret behind the remarkable popularity of the apocalyptic genre One answer she argues is that the books provide a sense of identification and communal belonging that counters the social atomization that characterizes modern life This also helps explain why they appeal to female readers despite the deeply patriarchal worldview they promote Tracing the evolution of the genre of rapture fiction Frykholm notes that at one time such narratives expressed a sense of alienation from modern life and protest against the loss of tradition and the marginalization of conservative religious views Now however evangelicalism's renewed popular appeal has rendered such themes obsolete Left Behind evinces a new embrace of technology and consumer goods as tools for God's work while retaining a protest against modernity's transformation of traditional family life Drawing on extensive interviews with readers of the novels Rapture Culture sheds light on a mindset that is little understood and far more common than many of us suppose [**Museums, Art and Inclusion in a Climate Emergency**](#) Janice Baker,2023-06-09 Museums Art and Inclusion in a Climate Emergency considers the impact of the Anthropocene on history

Post-Millennial Cultures of Fear in Literature

Mustafa Kirca, Adelheid Rundholz, 2024-04-19 The words fear risk and safety have come to define our contemporary age and have been construed as a dynamic background in the human sciences against which most risk narratives imaginative or otherwise can be read This volume brings together original articles to investigate cultures of fear in post millennial works and covers a wide variety of topics ranging from post millennial political fictions post humanist and postcolonial rewritings to trauma narratives risk narratives literary disaster discourses and apocalyptic scenarios Featuring theoretical and analytical approaches with insights borrowed from multiple disciplines this book will be of interest for scholars and researchers working in the fields of literary and cultural studies as well as the general reader

Apocalyptic Discourse in

Contemporary Culture Monica Germana, Aris Mousoutzanis, 2014-09-15 This interdisciplinary collection of essays focuses on critical and theoretical responses to the apocalypse of the late twentieth and early twenty first century cultural production Examining the ways in which apocalyptic discourses have had an impact on how we read the world s globalised space the traumatic burden of history and the mutual relationship between language and eschatological belief fifteen original essays by a group of internationally established and emerging critics reflect on the apocalypse its past tradition pervasive present and future legacy The collection seeks to offer a new reading of the apocalypse understood as a complex and frequently paradoxical paradigm of contemporary Western culture The majority of published collections on the subject have been published prior to the year 2000 and in their majority of cases locate the apocalypse in the future and envision it as something imminent This collection offers a post millennial perspective that perceives the end as immanent and simultaneously rooted in the past tradition

Cargo, Cult, and Culture Critique Holger Jebens, 2004-09-30 Cargo cults

have long exerted a remarkable attraction on Westerners and the last decade has seen the publication of much new work on the subject This collection of original essays is based on fieldwork in Melanesia Fiji Australia and Indonesia by scholars who are influential in the contemporary debate on cargo Conceived as a reader for undergraduate and graduate courses the volume offers an up to date view of the subject and the debates it arouses among contemporary anthropologists Some contributors plead for the abolition of cargo because of its troublesome implications but also because in the authors view

cargo cults do not exist as identifiable objects of study Others argue that it is precisely this troublesome nature that makes the term a useful analytical tool that should be welcomed rather than rejected By delineating and substantiating key issues and positions in this lively and ongoing debate this volume underscores and refines the contemporary reevaluation of cargo cults Scholars of the Pacific region and others interested in new religious movements should find this volume both enlightening and compelling Contributors Nils Bubandt Vincent Crapanzano Douglas M Dalton Elfriede Hermann Holger Jebens Martha Kaplan Karl Heinz Kohl Stephen C Leavitt Lamont Lindstrom Ton Otto Joel Robbins Jaap Timmer Robert Tonkinson **Millenarianism and Messianism in English Literature and Thought, 1650-1800** Richard Henry Popkin,1988-01-01 *Culture, Ideology, And World Order* R.b.j. Walker,2019-08-16 Contemporary discourse about human affairs is largely grounded in the specific historical experience and interests of a few dominant societies This poses an important challenge to all those who urge that we need to adopt a global perspective on modern political life whether in terms of international relations comparative and developmental politi *Planning in Ten Words Or Less* Michael Gunder,Jean Hillier,2009 Based on a range of international studies on planning policy and practice this book takes a Lacanian and related post structuralist perspective to demythologize ten of the most heavily utilized terms in spatial planning

Religious Narratives in Italian Literature after the Second Vatican Council Jenny Ponzo,2019-03-18 This book presents a semiotic study of the re elaboration of Christian narratives and values in a corpus of Italian novels published after the Second Vatican Council 1960s It tackles the complex set of ideas expressed by Italian writers about the biblical narration of human origins and traditional religious language and ritual the perceived clash between the immanent and transcendent nature and role of the Church and the problematic notion of sanctity emerging from contemporary narrative *The Culture of Biomedicine* Dewey Heyward Brock,1984 This wide ranging but well integrated anthology is the first volume in a new series sponsored by the Center for Science and Culture at the University of Delaware The theme of this book is the possibility of developing a unified worldview in which the perspectives of science and the humanities work together in the effort to understand the human condition Not Yet Jamie Owen Daniel,Tom Moylan,1997-07-17 The essays gathered here recommend the work of Ernest Bloch as a challenge to older models of historical materialism and utopian emancipation and give specific examples of how Bloch s work can contribute to current debates about utopia nationalism collective memory and the complex relationship between ideology and everyday life Perfecting Human Futures J. Benjamin Hurlbut,Hava Tirosh-Samuelson,2016-02-22 Humans have always imagined better futures From the desire to overcome death to the aspiration to dominion over the world imaginations of the technological future reveal the commitments values and norms of those who construct them Today the human future is thrown into question by emerging technologies that promise radical control over human life and elicit corollary imaginations of human perfectibility This interdisciplinary volume assembles scholars of science and technology studies sociology philosophy theology ethics and history to examine imaginations of

technological progress that promises to transcend the constraints of human body and being Attending in particular to transhumanist and posthumanist visions the volume breaks new ground by exploring their utopian and eschatological dimensions and situating them within a broader context of ideas institutions and practices of innovation The volume invites specialists and general readers to explore the stakes of contemporary imaginations of technological innovation as a source of progress a force of social and historical transformation and as the defining essence of human life
