Small Business D. J. Storey, 2000 *Small Business* D. J. Storey, 2000 *Entrepreneurship* Norris F. Krueger, 2002 This new collection provides a much needed retrospective view of the key academic work published in this area. The papers here highlight the importance of studying entrepreneurship from a wide range of perspectives including research that derives from economics, history, sociology, psychology and from different business disciplinary bases such as marketing, finance and strategy. The overall focus in this set is on entrepreneurial activity rather than specifically small or family owned business and favours research articles over those that deal purely with practice.

Contemporary Microenterprise Joseph Mark S. Munoz, 2010-01-01 While there have been numerous books and articles written on the popular topic of microfinance, few books have been written on the business model behind it, the microenterprise. Due to its diversity of thought and high quality of chapter contributions, this book is poised to be the book on microenterprises. *Contemporary Microenterprise* is a collage of the latest research and viewpoints on the subject by recognized academics and experts from around the globe. Through the confluence of diverse and profound voices from around the world, very small micro businesses have proven to be the most prevalent and fastest growing business form and a suitable model for enterprise survival and success in a challenging global economy. Joseph Mark Munoz has brought together an international cast of contributors and draws insights from concepts and cases from locations such as Vietnam, the United States, Latin America and Africa. The chapters include conceptual frameworks and research that yield valuable lessons and practical business solutions. The broad scope of this compendium, coupled with its careful attention to detail, will be of critical value to business students and their professors, industry executives, government officials, policymakers, consultants and entrepreneurs.

It provides a comprehensive overview of theoretical and empirical approaches to the economics and management of regenerative production, evaluating sustainability in relation to global production and innovation networks. Renowned authors address pressing challenges such as climate change, deforestation, desertification, technological advancements and rising social inequality, as well as the ongoing exploitation of labor in the Global South.

Public Management: Expanding the scope of public management Stephen P. Osborne, 2002 **Diversity and Entrepreneurship** Vanessa Ratten, Leo-Paul Dana, 2019-08-28 Whilst there has been an increased interest in minorities and their contribution to society, the literature on minorities and under represented communities is still weak. This edited volume discusses entrepreneurship in the context of minorities and the role they play in society. The book looks at under represented communities such as LGBTQ, disadvantaged, ethnic minority, religious entrepreneurs, medically limited, indigenous, refugees, young, old and other socio economic segments. It provides a holistic comprehensive overview of how diversity in

researchers advanced students and policy makers A Research Agenda for Entrepreneurship Policy David Smallbone, Friederike Welter, 2020-07-31 This book makes the case for a change in the research agenda on entrepreneurship policy An exemplary group of authors addresses the agenda for entrepreneurship policy researchers policy makers and practitioners in the field A key theme is the importance of context which is particularly marked where policy transfer is attempted *Critical Perspectives on Innovation Management* Patryk Dziurski, 2021-11-28 Most firms perceive innovation as the best way to grow However how it can best be managed is still unclear While the number of publications on innovation has skyrocketed over the past two decades it is still increasingly difficult to gain an overview of its most critical aspects Much has been written about the possible benefits of innovation but there is still a lack of understanding of its downsides at the innovative firm level This can lead to detrimental effects such as a lower commitment to innovation a lack of effective innovation strategy inappropriate organizational design that does not enhance innovation and either a too cautious or too risky approach to innovation Thus the book aims to explore the concept of innovation management as well as to identify the bright and dark sides of innovation in innovative firms A better understanding of the positive and negative effects of product and process innovation expands the knowledge base on innovation management and allows managers to manage innovation in a more efficient and effective manner This book will be valuable to researchers academics managers and advanced students in the fields of management studies strategy and organizational studies **Entrepreneurship As Practice** Neil Aaron Thompson, Karen Verduijn, William B. Gartner, 2021-08-19 This innovative book takes seriously the ordinary activities of entrepreneurship and maps out new pathways for scholars to understand the nature properties and implications of studying practices for entrepreneurship studies Entrepreneurship is neither an art nor a science but a bundle of practices as Peter Drucker once observed Curiously however academic research on entrepreneurship mostly abstracts away from practical activity In contrast Entrepreneurship As Practice takes ordinary activities of entrepreneurship seriously by mapping out new pathways for scholars to consider the everyday practices through which entrepreneurship occurs Each chapter draws on contemporary theories of practice to illuminate the nature properties and implications of studying the practices of entrepreneurship The chapters in this book were originally published as a special issue of the journal Entrepreneurship Regional Development *Critical management studies in South Africa* , 2021-11-30 This book shows how Critical Management Studies CMS scholarship is starting to develop a character of its own in South Africa It attests to CMS slowly gaining momentum and acquiring an identity of its own amongst South African scholars However management studies in South Africa is dominated by capitalist ideology and positivist methodology Although Interpretive scholarship has gained some momentum it still falls within the parameters of mainstream capitalist thinking Scholarship outside the domain of capitalist thinking such as critical scholarship remains sorely underexplored Being entrenched in the positivist tradition is arguably a major Achilles Heel for the progression of management as a field of inquiry CMS presents a vehicle for alternative

epistemologies to be heard in the management discourse With its focus on power imbalances struggles for emancipation from oppression and distrust of capitalism CMS provides the peripheral point of view with a voice CMS presents a space where scholars can engage with South African realities surrounding political cultural social and historical contexts and issues in management This book is promoting CMS to the scholarly community to show that there are exciting possibilities being offered by a different approach to management scholarship This book also forms part of a larger project of growing CMS in South Africa and is a collection of original works by academics actively working in CMS following various methodological approaches which can be categorised into two broad methodological categories namely conceptual work and empirical work following an Interpretive approach *Small Business Management in Cross-Cultural Environments* Per Lind,2013-03-01
