Women's Empowerment and Microcredit Programmes in India Annabel Dulhunty, 2023-08-21 Women's Empowerment and Microcredit Programs in India examines the value of microcredit based self help groups SHGs for women in India and provides an alternative model for women's empowerment programming The microcredit sector continues to boom globally with private investors governments and multilateral financial institutions all investing substantial amounts in self help group programming Nowhere is this more evident than in India where the industry has further been deregulated in recent years

Much of the rationale for increased investment in microcredit is based on the idea that it improves women's empowerment. But is this true? Researchers have fiercely debated the value of microcredit programs for women, with some arguing that it is exploitative and others contending that it is empowering. This book provides new insights into women's empowerment and microcredit programming, elaborating on the themes of power, dignity, mobility, and solidarity. It takes a nuanced view of the complexities surrounding self-help group programming and women's empowerment and argues that the model of microcredit self-help group programming is key to whether it helps or harms women. By focusing on the experiences and voices of microcredit self-help group members in West Bengal, India, this book elaborates on the idea of microcredit models existing on a continuum from smart economics to more holistic feminist versions of programming. It will be of interest to scholars in development studies, anthropology, sociology, gender studies, and public policy, and Asian Studies.
