- **Viewing of daytime serials and MTV is a predictor of sexually permissive attitudes and behavior among college students.**

Television And Sexuality:

Television and Sexuality Jane Arthurs, 2004-09-16 In recent years there has been a marked increase in both the volume and diversity of sexual imagery and talk on television condemned by some as a rising tide of filth celebrated by others as a liberation from the regulations of the past Television and Sexuality questions both these responses through an examination of television's multiple channels and genres and the wide range of sexual information and pleasures they provide The book explores the way that sexual citizenship and sexual consumerism have been defined in the digital era to reveal the underlying assumptions held by the television industry about the tastes and sexual identities of its diverse audiences It draws on the work of key thinkers in cultural and media studies as well as feminist and queer theory to interrogate the political and cultural significance of these developments With topics including the regulation of taste and decency sex scandals in the news the biology of sex in science programmes and gay lesbian and postfeminist identities in quality drama this book is key reading for students in cultural and media studies and gender studies **Television, Sex and Society** Beth Johnson, James Aston, Basil Glynn, 2012-06-14 Since the 1990s the screening of sex on American British and Asian television screens has become increasingly prolific Considering not only the specificities of selected sexualised images in relation to popular series this study also concerns itself with the ramifications of TV sex as well as discussing the various techniques that are used by TV producers programme makers to establish the cultural worth of their texts in series such as *Shameless* *The Tudors* and *True Blood* The contributions draw attention to shifting representations of sex on television away from the authoritarian state and patriarchal order toward a more democratic form of representation As a significant and under represented aspect of contemporary television studies this is the first full length academic collection to consider the wide ranging representations of sex in society on contemporary television **"The" New Gay for Pay** Julia Himberg, 2017 *Mediating Sexual Citizenship* Anita Brady, Kellie Burns, Cristyn Davies, 2017-07-06 *Mediating Sexual Citizenship* considers how the neoliberal imperatives of adaptation improvement and transformation that inform the shifting artistic and industrial landscape of television are increasingly indexed to performed disruptions in the norms of sexuality and gender Drawing on examples from a range of television genres quality drama reality television talk shows sitcoms and outlets network cable subscription video on demand the analysis in this book demonstrates how as one of the most dominant cultural technologies television plays a critical role in the production maintenance and potential reconfiguring of the social organisation of embodiment be it within gender identities kinship structures or the categorisation of sexual desire It suggests that in order to understand television's role in producing gendered and sexual citizenship we must pay critical attention to the significant shifts in how television is produced broadcast and consumed **The New Gay for Pay** Julia Himberg, 2018-01-13 Television conveys powerful messages about sexual identities and popular shows such as *Will* how those practitioners operate within media conglomerates and perhaps most important how they contribute to commonsense ideas about sexuality **Exploring the**

Queer TV Glyn Davis, Gary Needham, 2008-12-03 How can we queerly theorise and understand television How can the realms of television studies and queer theory be brought together in a manner beneficial and productive for both Queer TV Theories Histories Politics is the first book to explore television in all its scope and complexity its industry production texts audiences pleasures and politics in relation to queerness With contributions from distinguished authors working in film television studies and the study of gender sexuality it offers a unique contribution to both disciplines An introductory chapter by the editors charts the key debates and issues addressed within the book followed by three sections each central to an understanding of the relationships between queerness and television theories and approaches histories and genres and television itself Individual essays examine the relationships between queers queerness and television across the multiple sites of production consumption reception interpretation and theorisation as well as the textual and aesthetic dimensions of television and the televisual The book crucially moves beyond lesbian and gay textual analyses of specific TV shows that have often focussed on evaluations of positive negative representations and identities Rather the essays in Queer TV theorise not just the queerness in on television the production personnel the representations it offers but also the queerness of television as a distinct medium

Television Studies in Queer Times F. Hollis Griffin, 2023-05-09 This timely collection of accessible essays interrogate queer television at the start of the twenty first century The complex political cultural and economic milieu requires new terms and conceptual frameworks to study television and media through a queer lens Gathering a range of well known scholars the book takes on the relationship between sexual identity desire and television breaking new ground in a context where existing critical vocabularies and research paradigms used to study television no longer hold sway in the ways they used to The anthology sets out to confound conventional categories used to organize queer television scholarship like programming industry audience genre and activism Instead the anthology offers four interpretive frames historicity temporal play ideological limitation and industrial contextualization in the interest of creating new queer tools for studying digital television in the contemporary age This collection is suitable for scholars and students studying queer media studies television studies gender studies and sexuality studies

A Queer Eye for Capitalism Yarma Velázquez Vargas, 2010-06-09 This study uses critical discourse analysis to conduct an examination of the reality television program Queer Eye The goal is to help understand the manner in which the representations of queer culture in the show reinforce the binaries of sex gender and sexuality By investigating the evolution of Queer Eye this study provides insights into American popular culture s understanding and depiction of sexual difference and evidences the strong link between these representations and the

commercial interests of the producers In the show Queer Eye the male guests sell access to their lives for a makeover and in the process they are indoctrinated into new patterns of consumption The identity of both the five main characters and the guest character is represented as a reflection of their aesthetic choices and audiences are exposed to numerous product placements and advertising messages In encouraging materialism the show transforms the term queer into a commodity sign and redefines masculinity as represented through wealth and accumulation Moreover consistent with the stereotypical representation of gay males in American culture the queerness of the Fab is depicted as asexual and a form of aestheticism

Reality TV and Queer Identities Michael Lovelock,2019 **Feeling Normal** F. Hollis Griffin,2017-01-09 The explosion of cable networks cinema distributors and mobile media companies explicitly designed for sexual minorities in the contemporary moment has made media culture a major factor in what it feels like to be a queer person F Hollis Griffin demonstrates how cities offer a way of thinking about that phenomenon By examining urban centers in tandem with advertiser supported newspapers New Queer Cinema and B movies queer targeted television and mobile apps Griffin illustrates how new forms of LGBT media are less new than we often believe He connects cities and LGBT media through the experiences they can make available to people which Griffin articulates as feelings emotions and affects He illuminates how the limitations of these experiences while not universally accessible nor necessarily empowering are often the very reasons why people find them compelling and desirable **Gender and Sexuality in Teenagers** Kristi Lynn Powers,ProQuest Dissertations and Theses (Electronic resource collection),University of Texas at Arlington.
