Volume 6, Part 2 Justin

Glenn, 2014-09-05 This is the sixth volume of Dr Justin Glenn's comprehensive history that traces the Presidential line of the Washingtons. Volume One began with the immigrant John Washington who settled in Westmoreland Co Va in 1657 married Anne Pope and became the great grandfather of President George Washington. It continued the record of their descendants for a total of seven generations. Volume Two highlighted notable family members in the next eight generations of John and Anne Washington's descendants. Volume Three traced the ancestry of the early Virginia members of this Presidential Branch back in time to the aristocracy and nobility of England and continental Europe. Volume Four resumed the family history where Volume One ended and it contained Generation Eight of the immigrant John Washington's descendants. Volume Five treated Generation Nine. Volume Six now presents Generation Ten and it includes over 12 000 descendants. Future volumes will add generations eleven through fifteen making a total of over 63 000 descendants. Although structured in a genealogical format for the sake of clarity this is no bare bones genealogy but a true family history with over 1 200 detailed biographical narratives. These in turn strive to convey the greatness of the family that produced not only The Father of His Country but many others great and humble who struggled to build that country. ADVANCE PRAISE I am convinced that your work will be of wide interest to historians and academics as well as members of the Washington family itself. Although the surname Washington is perhaps the best known in American history and much has been written about the Washington family for well over a century it is surprising that no comprehensive family history has been published. Justin M Glenn's The Washingtons A Family History finally fills this void for the branch to which General and President George Washington belonged identifying some 63 000 descendants. This is truly a family history not a mere tabulation of names and dates providing biographical accounts of many of the descendants of John Washington who settled in Westmoreland County Virginia in 1657. Each individual section is followed by extensive listings of published and manuscript sources supporting the information presented and errors of identification in previous publications are commented upon as appropriate. John Frederick Dorman editor of The Virginia Genealogist 1957-2006 and author of Adventurers of Purse and Person. Decades of reviewing Civil War books have left me surprised and delighted when someone applies exhaustive diligence to a topic not readily accessible. Dr Glenn surely meets that standard with the meticulous research that unveils the Washington family in gratifying detail. Many of them
