Ron Morton, Carl Gawboy

The Mackenzie River To The Top Of The World:

The Mackenzie Beatrice Lambie, 1967-06-01 Presents a description of the people animals and landscape of the Mackenzie River basin as well as technical highlights of the Mackenzie itself second longest river on the North American Continent once believed to be the Northwest passage to China The Petroleum World ,1920 **Popular Mechanics** ,1991-12 Popular Mechanics inspires instructs and influences readers to help them master the modern world Whether it s practical DIY home improvement tips gadgets and digital technology information on the newest cars or the latest breakthroughs in science PM is the ultimate guide to our high tech lifestyle **Birds of the Yukon Territory** Pamela H. Sinclair, Wendy A. Nixon, Cameron D. Eckert, Nancy L. Hughes, 2011-11-01 The Yukon is a land of remarkable wilderness diverse ecosystems and profound beauty It is also home to a unique assemblage of birds As of 2002 288 bird species have been documented in the Yukon with 223 occurring regularly They occupy an amazing range of habitats from the most barren mountain peaks to lush valley bottom forests and are an integral part of the cultural heritage of Yukon First Nations people The vast areas of natural habitat with limited road access can make the study of birds challenging but are key in defining the nature of birding in the Yukon Birds of the Yukon Territory is the result of a decade long project initiated to gather and share what is known about the Yukon s birdlife Lavishly illustrated with 600 colour photographs and 223 hand drawn bird illustrations the book presents a wealth of information on bird distribution migration and breeding chronology nesting behaviour and habitat use and on conservation concerns Two hundred and eighty eight species of birds are documented including 223 regular species and 65 casual and accidental species In compiling this meticulously researched volume the authors consulted over 166 000 records in a database created by the Canadian Wildlife Service with information dating back to 1861 Sections on birds in Aboriginal culture and history and bird names in the Yukon First Nations and Inuvialuit languages enhance the book as do the numerous easily interpreted charts and graphs Destined to become a basic reference work on the avifauna of the North Birds of the Yukon Territory is a must have for bird enthusiasts and anyone interested in the natural history of the Yukon and the North

Ancient Earth and the First Ancestors: A Cultural and Geological Journey Ron Morton, Carl Gawboy, 2011-11-30 In this sequel to the award winning Talking Rocks an earth scientist and an Ojibwe elder travel across Minnesota exploring the ancient rocks that make up a large part of that state As the geologist describes how these rocks formed and brings to life the ancient worlds they created the elder through Native American stories oral history culture and science illustrates how his people had an intimate understanding of and respect for these ancient rocks and the land they gave shape to Traveling from Ely Grand Portage Gunflint Lake and Isle Royale in the northern part of the state south to Jeffers Mor ton and Blue Mounds State Park the two find themselves discussing such diverse topics as the nature of science holistic geology mining science and spirituality the legacy of the furtrade significance of the Little Spirit Tree and much more Ancient Earth and the First Ancestors not only tells a fascinating story that spans billions of years but is also a wonderful chronicle of two people from

different cultural and scientific heritages learning to understand appreciate and see the value and importance in each other's way of viewing this land and the planet we all call home **Geography in World Society** Alfred H. Meyer, John H.

Strietelmeier, 1963 Geography in World Society is designed as a textbook in introductory college geography with a spatial conceptual approach throughout As here presented geography is an areal interpretation and evaluation of earth realities comprehended in the various academic disciplines In this context the disciplinary interests and value of geography itself are centered upon areal association of the physical biological social economic and political phenomena of this world rather than upon the phenomena per se To this end the selection and organization of material are designed to assess the regional role that natural and human resources play in the creation and solution of world problems Since geography may be viewed as a land and resource policy creating subject process and planning as well as product and inventory are stressed Accordingly the basic questions to which this text addresses itself are What is man in terms of ecosis earth habitat relationship What is his ethos earth steward responsibility How do the forms of human occupation reveal areal human behavior What is the nature of man's control over the nature conditioning environment How does the analysis of global phenomena by the unitary geographic region method differ from that of the political nation state approach in the study of world affairs *The River's End* James Oliver Curwood, 2021-05-19 In *The River's End* James Oliver Curwood masterfully weaves a tale of adventure and introspection set against the majestic Canadian wilderness This novel arising from the early 20th century literary movement that celebrated nature and human struggle showcases Curwood's signature lyrical prose and vivid descriptions drawing readers into a rich tapestry of landscapes and characters Through the journey of his protagonist Curwood explores themes of love redemption and the enduring bond between humanity and nature while highlighting the stark beauty and dangers of life along the riverside James Oliver Curwood a fervent naturalist and environmental advocate was deeply influenced by his experiences in the wilds of Canada His embrace of nature not only shaped his writing but also motivated his activism often encouraging conservation efforts This personal connection to the land imbues *The River's End* with authenticity as the author reflects his understanding of the human experience within the shifting tides of natural forces Curwood's life as an outdoorsman and his passion for storytelling resonate powerfully throughout the narrative I highly recommend *The River's End* to readers who appreciate tales of adventure infused with nature's beauty and existential themes Curwood's ability to combine thrilling plotlines with poignant reflections on life and the environment will leave readers both enthralled and contemplative making this work a timeless classic in American literature *The Kids Book of the Far North* Ann Love, Jane Drake, 2009-09 Illustrations and simple text profile the people cultures landscapes and history of the Arctic *To the Ends of the Earth* Ranulph Fiennes, 2014-09-11 Ranulph Fiennes has entered the public imagination as the intrepid explorer par excellence Taunted by his wife over the challenge of the never before attempted circumpolar navigation of the globe he set off in 1979 on a gruelling 52 000 mile adventure Together with fellow members of 21 SAS regiment Fiennes left from

Greenwich travelling over land passing through both ends of the polar axis Completed over two years later it was the first circumpolar navigation of the globe and justifiably entered Fiennes into the record books TO THE ENDS OF THE EARTH is the record of that journey It captures the natural beauty of the landscapes they passed through and the camaraderie that necessarily grows between men who had served in the British forces elite regiment and were now throwing themselves into danger of a different sort Time and again the expedition found themselves in life threatening situations weaving through the pack ice of the Arctic Ocean or sharing a single sleeping bag to ward off the 40 degrees celsius Arctic night The calm and measured approach which made Fiennes such a great expedition leader shines through TO THE ENDS OF THE EARTH deftly recreating the last unexplored regions on earth It is also a book which lays the foundations for what was to come for Fiennes confirming a need to exist outside the comfortable norms the rest of us inhabit As the expedition progresses there is also a mounting sense of tension as attainment of the final goal also spells the end of the adventure TO THE ENDS OF THE EARTH is a compelling account of one journey and Fiennes drive to push himself to ever further extremes **End-of-Earth People** Bern Will Brown,2014-03-10 A history of the End of Earth Native people of Canada s far North Sahtu region Bern Will Brown noted northern author artist photographer and respected community leader living in Colville Lake Northwest Territories provides new insights and perspectives on the Sahtu Dene the people referred to as the Hareskin in Alexander Mackenzie s 1793 journal Having lived among them for over sixty years and as a speaker of their dialect Brown is well positioned to provide an adventure in history and culture rooted in the Hareskin traditional way of life End of Earth People his latest contribution and a valuable record of the North is a portrait of a people Brown has come to know in ways that anthropologists and ethnologists can only envy **The Publishers' Trade List Annual** ,1968 *Across This Land* John C. Hudson,2002-03 Based on decades of research and written in clear concise prose by one of the foremost geographers in North America John C Hudson s *Across This Land* is a comprehensive regional geography of the North American continent Clearly organized the book divides the entire United States and Canada into six major regions then further subdivides them into twelve smaller areas Hudson emphasizes each region or area s distinguishing place specific attributes including to a larger degree than previous regional geographies political considerations In this way the book tells the story of each region relying on a brisk narrative that reveals the dynamic processes of their distinctive characteristics The first extensive regional geography of the North American continent in over seventy five years Hudson s *Across This Land* will become the standard text in geography courses dealing with Canada and the U S as well as a popular reference work for scholars students and lay readers *Unfreezing the Arctic* Andrew Stuhl,2016-11-03 This account of a region transformed and threatened offers a timely historical reflection on the important social role of science and scientists Historical Geography In recent years environmentalists have pointed urgently to the melting Arctic as a leading indicator of climate change While climate change has unleashed profound transformations in the region many commentators mislabel them as unprecedented In reality the

landscapes of the North American Arctic as well as relations among scientists Inuit and federal governments are products of the region's colonial past And even as policy analysts activists and scholars clamor about the future of our world's northern rim few truly understand its past In *Unfreezing the Arctic* Andrew Stuhl brings a fresh perspective to this defining challenge of our time Stuhl weaves together a wealth of episodes into a transnational history of the North American Arctic providing a richer understanding of its social and environmental transformation Drawing on historical records and extensive ethnographic fieldwork as well as time spent living in the Northwest Territories he examines the long running interplay of scientific exploration colonial control the experiences of Inuit residents and multinational investments in natural resources With a comprehensive look at a century of scientific activity he covers the political economic environmental and social history of this transboundary region A worthy addition to the recent wave of work on northern history Bridging the histories of colonialism resource management military activity and Indigenous self determination Stuhl focuses on Alaska and northwest Canada including the Beaufort Sea Mackenzie Delta and surrounding region *Canadian Journal of History* The author intends to donate all royalties from this book to the Alaska Youth for Environmental Action AYE and East Three School's On the Land Program
