California Progressivism Revisited William F. Deverell, Tom Sitton, 2023-09-01. California was perhaps the most important locus for the development of the Progressive reform movement in the decades of the twentieth century. These twelve original essays represent the best of the new scholarship on California Progressivism. Ranging across a spectrum that embraces ethnicity, gender, class, and varying ideological stances, the authors demonstrate that reform in California was a far broader, more complicated phenomenon than we have previously understood. Since the 1950s, scholars have used California Progressivism as a model case study for explaining early twentieth century social and political reform nationwide. But such a model, which ignored issues of class, race, and gender, simplified a political movement that was in fact quite complex. In revising the monolithic interpretation of reform and reformers, this volume provides a better understanding of the sweeping reform impulses that had such a profound effect on American political and social institutions during this century. Equally important, the issues examined here offer significant insights into problems that the entire country must tackle as we approach the new century.

Gold Diggers and Silver Miners Marion S. Goldman, 2025-08-14. In 1859, high grade silver bullion was discovered on the Comstock Lode. In a twinkling, Virginia City was transformed into a brawling boom town perched on a mountain of silver. Twenty years later, it virtually disappeared, leaving behind played-out mines, tumbled-down shanties, and memories of those who sought their fortunes on the lode. The fortune seekers were many: miners and madams, confidence men and dance hall girls. The fast life was as stratified as any proper community, ranging from expensively kept women to prostitutes living in cribs. Laura Fair, an elite member of the demimonde, shot her protector and, after a spectacular trial, retired to live modestly in San Francisco. Jessie Lester made a small fortune as a madam, while middle-rank prostitutes such as Julia Bulette died in debt. At the lowest end of the scale were celestial damsels, nameless slave women brought from China to minister to the needs of Chinese workers. Chronicling it all was the cynical and lascivious pen of Alf Doten, writer, editor, and bon vivant. In *Gold Diggers and Silver Miners*, sociologist Marion S. Goldman provides a detailed account of prostitution on the Comstock Lode. By considering sexual

commerce in a community limited in space and time she explores general relationships between prostitution and society shedding light on sociological questions of importance today
