Acronyms of Life Leonard Karshima Shilgba, 2014-10-06 Acronyms of Life is an exposition on the human life its earthly meaning creation by a Supreme Creator being discovering living purpose introduction of man marriage and family issues divine arrangements etc Today's citizens of the world bring a lot of pressure upon themselves in their insatiable search for happiness and satisfaction We are fast becoming prisoners of our dreams and ambitions But the worth of our choices is measured by their self benefit and not self benefit You must know your life TOUCH Task What to do Operating base Where to do it Uppercut How to do it Character What to use an intrinsic tool and Hour When to do it Find more in those precious pages of Acronyms of Life [Hysterical Methodologies in the Arts](#) Johanna Braun, 2021-06-18 Hysteria is alive and well in our present time and is apparently spreading contagiously especially the second decade of the twenty first century has displayed an ever increasing interest in the term A quick Google search opens the gates to sheer endless swathes of discussions on hysteria covering almost every aspect of public discourses The arts as it is often in such cases seem conspicuously involved in and engaged with this hysterical discourse Surprisingly while the strong academic interest in hysteria throughout the twentieth century and most prominently at the turn of the century is well known and much discussed the study of how these discourses have continued well into twenty first century art practices is largely pressing on a blind spot It is the aim of this volume to illustrate how hysteria was already well established within the arts alongside and at times even separately from the much covered medical studies and reveal how those current artistic practices very much continue a century spanning cross fertilization between hysteria and the arts **Student Encyclopedia of African Literature** Douglas Killam, Alicia L. Kerfoot, 2007-12-30 African literature is a vast subject of growing output and interest Written especially for students this book selectively surveys the topic in a clear and accessible way Included are roughly 600 alphabetically arranged entries on writers genres and major works Many entries cite works for further reading and the volume closes with a selected general bibliography Africa is a land of contrasts and of diverse cultures and traditions It is also a land of conflict and creativity The literature of the continent draws upon a fascinating body of oral traditions and lore and also reflects the political turmoil of the modern world With the increased interest in cultural diversity and the growing centrality of Africa in world politics African literature is figuring more and more prominently in the curriculum This book helps students learn about the African literary achievement Written expressly for students this book is far more accessible than other reference works on the

subject Included are nearly 600 alphabetically arranged entries on authors such as Chinua Achebe Athol Fugard Buchi Emecheta Nadine Gordimer and Wole Soyinka major works such as *Things Fall Apart* and *Petals of Blood* and individual genres such as the novel drama and poetry Many entries cite works for further reading and the volume closes with a selected general bibliography

The Phantom Image Patrick R. Crowley,2019-12-10 Drawing from a rich corpus of art works including sarcophagi tomb paintings and floor mosaics Patrick R Crowley investigates how something as insubstantial as a ghost could be made visible through the material grit of stone and paint In this fresh and wide ranging study he uses the figure of the ghost to offer a new understanding of the status of the image in Roman art and visual culture Tracing the shifting practices and debates in antiquity about the nature of vision and representation Crowley shows how images of ghosts make visible structures of beholding and strategies of depiction Yet the figure of the ghost simultaneously contributes to a broader conceptual history that accounts for how modalities of belief emerged and developed in antiquity Neither illustrations of ancient beliefs in ghosts nor depictions of afterlife these images show us something about the visual event of seeing itself The Phantom Image offers essential insight into ancient art visual culture and the history of the image
