The Making Of A Pariah State The Adventurist Politics Of Muammar Qaddafi:

The Making of a Pariah State Martin Sicker, 1987-03-04 The Making of a Pariah State takes the reader behind the flamboyance and apparent irrationality of Libyan leader Muammar Qaddafi to expose his attempt to impose national cohesion on the Arab Muslim and Third World elements under his leadership Addressed to the general reader interested in foreign affairs this timely and unique book provides a coherent framework for understanding why Libya is involved in international terrorism and the danger Qaddafi poses to the Third World and the West **The New Public Diplomacy** J.

Melissen, 2005-11-22 After 9 11 which triggered a global debate on public diplomacy PD has become an issue in most countries This book joins the debate Experts from different countries and from a variety of fields analyze the theory and practice of public diplomacy They also evaluate how public diplomacy can be successfully used to support foreign policy

Deterring Libya the strategic culture of Muammar Qaddafi , Trading with Pariahs Keith A. Preble, Charmaine N. Willis, 2024-08-22 The past few decades have witnessed a proliferation of economic sanctions yet there seem to be few examples of sanctions meeting sender states goals Under what conditions do sanctions fail to change the behavior of so called international pariah states countries who violate various international norms This book examines the impact of economic sanctions on target states trading relationships through social network analysis a method that has rarely been applied to the study of sanctions Drawing on UN Comtrade data Trading with Pariahs Trade Networks and the Failure of Economic Sanctions shows that the imposition of sanctions can drastically change some states trading networks as states either find new trading partners in the case of North Korea or feel the sting of the sanctions from key trading partners like Iran Trading networks such as Myanmar s remain relatively stable over time as key trading partners refuse to impose sanctions Through the theory of weaponized interdependence Keith A Preble and Charmaine N Willis argue that the success or failure of sanctions to change target states behavior depends on who imposes the sanctions Sanctions imposed by the right sender states can be successful but also cannot rely solely on policies of isolation to achieve the goals of the sanctions

Communication and Conflict Transformation through Local, Regional, and Global Engagement Peter M. Kellett, Thomas G. Matyók, 2016-12-13 Central to a transformational approach to conflict is the idea that conflicts must be viewed as embedded within broader relational patterns and social and discursive structures and must be addressed as such This implies the need for systemic change at generative levels in order to create genuine transformation at the level of particular conflicts Central also to this book is the idea that the origins of transformation can be momentary or situational small scale or micro level as well as bigger and more systemic or macro level Micro level changes involve shifts and meaningful changes in communication and related patterns that are created in communication between people Such transformative changes can radiate out into more systemic levels and systemic transformative changes can radiate inwards to more micro levels This book engages this transformative framework Within this framework this book pulls together current work that epitomizes

and highlights the contribution of communication scholarship and communication centered approaches to conflict transformation in local community regional environmental and global conflicts in various parts of the world The resulting volume presents an engaging mix of scholarly chapters think pieces and experiences from the field of practice The book embraces a wide variety of theoretical and methodological approaches as well as transformative techniques and processes including narrative dialogic critical cultural linguistic conversation analytic discourse analytic and rhetorical This book makes a valuable contribution to the ongoing dialogue across and between disciplines and people on how to transform conflicts creatively sustainably and ethically

Madmen at the Helm Muriel Mirak-Weissbach, 2022-07-01 The Arab Spring was a watershed in Arab history which gave young protesters the impetus to challenge established and entrenched dictatorial regimes for the first time and to demand democracy This unique book reviews specialist literature and provides a profile of the personality disorder of narcissism displayed by five leaders Hosni Mubarak Muammar Qaddafi Zine El Abidine Ben Ali Ali Abdullah Saleh and Bashar al Assad together with the related syndromes of paranoia hysteria and sociopathy The book argues that the responses of these leaders to the challenges they faced indicate that they were psychologically incapable of facing reality and indeed displayed pathological symptoms in clinging fanatically to power in the face of revolt *Madmen at the Helm* considers each of the five leaders in turn examining their behavior during the upheavals as expressed in their public statements speeches interviews and courses of action Thus the book identifies patterns and similarities of behavior that serve to prove that the five stony faced old men in power displayed specific pathological personality types in their responses to the political and cultural circumstances in which they were operating A postscript to the book widens this context by identifying two cases of narcissism in contemporary American politics George W Bush and Sarah Palin This highly topical accessible and relevant book provides a psycho historical insight into the actions and responses of the deposed dictators viewed from a unique clinical psychological perspective

Libya and the United States, Two Centuries of Strife Ronald Bruce St John, 2013-03-26 Diplomatic relations between the United States and Libya have rarely followed a smooth path Washington has repeatedly tried and failed to mediate lasting solutions to prevent recurrent crises and to secure its own national interests in a region of increasing importance to the United States *Libya and the United States Two Centuries of Strife* provides a unique and up to date analysis of U S Libyan relations assessing within the framework of conventional historical narrative the interaction of the governments and peoples of Libya and the United States over the past two centuries Drawing on a wide range of new and unfamiliar material Ronald Bruce St John an expert with over thirty years of experience in international relations charts the instances of ignorance misunderstanding treachery and suffering on both sides that have shaped and limited commercial and diplomatic intercourse St John argues that Cold War strategies resulted in a paradoxical and ambiguous U S policy toward Libya during the Idris regime of the 1960s strategies that contributed to the bankruptcy of that monarchy Following the Libyan revolution the U S wrongly believed Qaddafi would become an ally in support of U S

policy to keep Soviet influence and communism out of the region his failure to do so marked the beginning of an era of political tension and mutual distrust Libya and the United States Two Centuries of Strife documents how long standing policy differences over the Palestinian issue and such terrorist acts as the destruction of the U S embassy in Tripoli and the Pan Am explosion over Lockerbie in 1988 resulted in a sharp deterioration of relations St John contends that the ensuing demonization of Libya and the U S policy of confrontation which has spanned successive administrations in Washington have ironically often not served American interests in the region but rather have facilitated Qaddafi s survival **Seeking**

Gaddafi Daniel Kawczynski,2011-10-31 On 18th March 2011 the United Nations passed Resolution 1973 allowing the establishment of a No Fly Zone above the towns and cities of Libya to defend civilians from the oppressive regime of Colonel Muammar Gaddafi With NATO planes now patrolling the skies over Libya s main cities the country faces an uncertain future Revolution Civil War Partition Only one man holds the answer and he is not going to give up power easily Seeking Gaddafi is a fascinating portrait of one of the most controversial figures in modern history Gaddafi has for four decades been absolute ruler of Libya a country where basic civil liberties are virtually nonexistent and opposition not tolerated For much of his reign he has been implicated in subversion and terrorist activities throughout the world and regarded as a patron of international terrorism Of late he had been seeking a more open relationship with the West a courtship that ended abruptly with the events of spring 2011 As the UK is drawn into yet another overseas conflict Daniel Kawczynski advisor on Libyan affairs to William Hague s Foreign Office team examines the persona and career of one of the world s most enigmatic and bizarre leaders and looks at what it would take to unseat him and what happens next Libya since 1969 D. Reyna, 2016-08-01 As US imperialism continues to dictate foreign policy Deadly Contradictions is a compelling account of the American empire Stephen P Reyna argues that contemporary forms of violence exercised by American elites in the colonies client state and regions of interest have deferred imperial problems but not without raising their own set of deadly contradictions This book can be read many ways as a polemic against geopolitics as a classic social anthropological text or as a seminal analysis of twenty four US global wars during the Cold War and post Cold War eras *Human Rights in Libya* Giacomina De Bona, 2013 Since the end of the Cold War a democratic wave has swept through large parts of the world propagating liberal values and giving impetus to the case for human rights in an international society To date however the promotion of human rights has presented a mixed account with some countries lagging behind others in terms of their observance In an effort to account for these differences this book analyzes the relationship between norms and the social construction of international society and examines how human rights are promoted in that context Focussing on Libya as a case study Giacomina De Bona criticises the neo realist approach by demonstrating the impact of international society on the advancement of human rights Libya has related to the international environment in different ways over time ranging from isolation to reconciliation and regime change making it a particularly interesting example This book is of particular relevance in light of the recent Arab Spring and raises the question as to whether the coercive imposition of the Western liberal model contributes to establishing respect for human rights in what continue to be the peripheral zones of international society *Political Alienation in Libya* Mabroka Al-Werfalli, 2022-07-01 How are legitimacy and alienation related When citizens withdraw their loyalty from their political regime and leaders they highlight their alienation The link between legitimacy and alienation is that the regime's claim of legitimacy is in question when a state of political alienation prevails This book examines the extent and effects of political alienation in Libya It provides an insight into the political mindset of the Libyan people leading up to the 2011 protests and the resulting civil war

Using a variety of measures the book highlights links between legitimacy and alienation and underlines certain types of political behavior commonly associated with political alienation drawing attention to various causes of indifference and violent behavior associated with political alienation in Libyan society The book s findings reveal that alienation has led to wide spread political apathy as well as low or non existent levels of political participation among Libyans Every year the percentage of eligible Libyans involved in political activities has declined The Basic Popular Congresses BPCs which work as an essential vehicle for political participation within the Libyan political regime have been treated as immature institutions by the revolutionary leadership who have remained in the eyes of the people the only actor of note As a result these trends are being increasingly interpreted as signs of the gradual exhaustion of a model for which there is no clear alternative in sight
