political emancipation which have been recorded across the African continent do not seem to have translated into economic and social gains for its 1.2 billion citizens the AU adopted a new development framework dubbed Agenda 2063 The framework calls on African leaders to rediscover the Pan African spirit and to create the Africa Africans want In practice this means a new focus and engagement with the African Diaspora tapping into their strong track record in economic development As this book shows however there remain deep differences over the meaning timing and sequencing of pan African integration Indeed different member states have different understandings of the role of the African Union itself This essential handbook from one of the leading research institutions on the continent seeks to uncover what some of those understandings are and why the unification project has remained so elusive Debating Nigeria Jideofor Adibe, 2016-12-21 In this collection of essays Jideofor Adibe offers his perspectives on some of the contentious issues in Nigerian politics governance and economy The essays mostly from the author's weekly column in the Daily Trust and contributions on Brookings Institutions Africa Growth Initiative's blog reflect on such themes as Boko Haram the upsurge in separatist agitations in the country the federal character principle and why elections are often anarchic in the country The articles are well researched and written with remarkable authority and conviction Unite or Perish Muchie, Mammo, Gumede, Vusi, 2015-03-26 This book is an outcome of the third conference in the successful Scramble for Africa International Conference series now renamed the African Unity for Renaissance International Conference The book provides an overview and contains profound analyses of the important issues pertaining to African Unity and African Renaissance The book is accessible to a wide variety of readers ranging from policy makers to researchers from teachers to students and for anyone concerned with the further development of the African continent and Africa's renewal The book outlines the various issues that animate Africa's stand in the global political socio economic cultural and technological arenas The chapters gathered in the book critically examine and evaluate the burning questions and challenges with which Africa is grappling This book is one of the vital texts for understanding how Africa will manage to navigate the tumultuous waters of globalisation as Africa has just recently emerged out of the horrors of slavery colonialism apartheid neo colonialism and genocide and is still wrestling with unceasing conflicts popular unrest neo imperialism coloniality and mushrooming insurgency The chapters provide a much needed insight into the issue of whether Africa has achieved genuine and meaningful independence after 50 years of the founding of the OAU and whether the baby steps Africa has taken towards unity are worth celebrating The contributors highlight these and allied issues with a view to capture more public attention in order to stimulate debate and usher in a new phase in the quest for African Unity and Renaissance The contributors are distinguished authors and established and emerging scholars in their own domains While a majority of the contributors are from the continent distinguished scholars from around the globe have joined their African fellows in dealing with the relevant issues regarding Africa's place in an ever changing world European Union and New Regionalism Mario Telò, 2016-04-22 Stemming from an international and

World Literature and the Geographies of Resistance Joel Nickels, 2018-06-07 This book proposes a new definition of world literature an archive of democratic mechanisms external to state power Accordingly World Literature and the Geographies of Resistance takes shape as an exploration of nonstate space territories of self government that contest the vertical command structures of the state Joel Nickels argues that literature devoted to these processes of spatial occupation can help us imagine democratic alternatives to state space and to the regime of legalized dispossession that goes under the name of globalization Conceptualized in these terms world literature can be viewed not as the corollary of 90s era cosmopolitanism but as a document of strategies for the militant reorganization of social space This ambitious book addresses the work of Patrick Chamoiseau Ousmane Sembene Miguel ngel Asturias Claude McKay Arundhati Roy T S Eliot and Melvin Tolson It engages with theories of transnationality diaspora and postcoloniality as well as world literature
