Blair, 2023-08-15 *Salvaging Empire* probes the historical roots and current predicaments of a twenty first century settler colony seeking to control an uncertain future through resource management and environmental science Four decades after a violent 1982 war between the United Kingdom and Argentina reestablished British authority over the Falkland Islands Las Malvinas in Spanish a commercial fishing boom and offshore oil discoveries have intensified the sovereignty dispute over the South Atlantic archipelago Scholarly literature on the South Atlantic focuses primarily on military history of the 1982 conflict However contested claims over natural resources have now made this disputed territory a critical site for examining the wider relationship between imperial sovereignty and environmental governance James J A Blair argues that by claiming self determination and consenting to British sovereignty the Falkland Islanders have crafted a settler colonial protectorate to extract resources and extend empire in the South Atlantic Responding to current debates in environmental anthropology critical geography Atlantic history political ecology and science and technology studies Blair describes how settlers have asserted indigeneity in dynamic relation with the environment *Salvaging Empire* uncovers the South Atlantic s outsized importance for understanding the broader implications of resource management and environmental science for the geopolitics of empire

Costume and History in Highland Ecuador Ann Pollard Rowe, Lynn A. Meisch, 2012-10-03 The traditional costumes worn by people in the Andes women s woolen skirts men s ponchos woven belts and white felt hats instantly identify them as natives of the region and serve as revealing markers of ethnicity social class gender age and so on Because costume expresses so much scholars study it to learn how the indigenous people of the Andes have identified themselves over time as

well as how others have identified and influenced them Costume and History in Highland Ecuador assembles for the first time for any Andean country the evidence for indigenous costume from the entire chronological range of prehistory and history The contributors glean a remarkable amount of information from pre Hispanic ceramics and textile tools archaeological textiles from the Inca empire in Peru written accounts from the colonial period nineteenth century European style pictorial representations and twentieth century textiles in museum collections Their findings reveal that several garments introduced by the Incas including men s tunics and women s wrapped dresses shawls and belts had a remarkable longevity They also demonstrate that the hybrid poncho from Chile and the rebozo from Mexico diffused in South America during the colonial period and that the development of the rebozo in particular was more interesting and complex than has previously been suggested The adoption of Spanish garments such as the pollera skirt and man s shirt were also less straightforward and of more recent vintage than might be expected
