### 22.1 Introduction

In the Western World, the man's role regarding pregnancy appeared, some decades ago, rather limited. After conception, the man barely got attention till the birth, and then, he was often portrayed as nervously waiting in the hallway. Nowadays, this has changed, with men participating in antenatal classes and parenting education courses in many Western countries, while this still might be different in other parts of the world. Despite wide variation across different contexts, globally identified barriers to men's involvement in pregnancy and childbirth commonly include beliefs that men's participation is unnecessary or that it's inappropriate for them to participate. Besides, men are systematically not (actively) invited to attend services, consultations, etc.
