**The Man of Letters as a Man of Business** William Dean Howells, 2022-09-04 In The Man of Letters as a Man of Business William Dean Howells presents a keenly observed exploration of the evolving role of authorship in the American literary landscape of the late 19th century Through a blend of essays and reflections Howells employs a candid conversational style that underscores the tension between artistic integrity and commercial pressures The book situates itself within a broader cultural context where the burgeoning publishing industry intersects with the responsibilities of the writer thus raising timely questions about the morality and economics of literary production William Dean Howells often hailed as the Dean of American Letters was a leading figure in American realism and a vocal advocate for the rights of authors His own experiences navigating the often tumultuous terrain of publishing coupled with his extensive engagement with contemporary writers provided a fertile backdrop for this work Howells career spanning journalism and fiction gave him a unique perspective on the precarious balance between maintaining literary craft and achieving commercial success I highly recommend The Man of Letters as a Man of Business to readers interested in the intricate interplay of creativity and commerce in literature Howells insights resonate in today's publishing climate making this book not only a historical document but also a guide for modern writers grappling with similar dilemmas

Elliott, 2002 Culture is a term we commonly use to explain the differences in our ways of living In this book Michael A Elliott returns to the moment this usage was first articulated tracing the concept of culture to the writings folktales dialect literature local color sketches and ethnographies that provided its intellectual underpinnings in turn of the century America The Culture Concept explains how this now familiar definition of culture emerged during the late nineteenth century through the intersection of two separate endeavors that shared a commitment to recording group-based difference American literary realism and scientific ethnography Elliott looks at early works of cultural studies as diverse as the conjure tales of Charles Chesnut the Ghost Dance ethnography of James Mooney and the prose narrative of the Omaha anthropologist turned author Francis La Flesche His reading of these works which struggle to find appropriate theoretical and textual tools for articulating a less chauvinistic understanding of human difference is at once a recovery of a lost connection between American literary realism and ethnography and a productive inquiry into the usefulness of the culture concept as a critical tool in our time and times to come      *Man of Quality, Man of Letters* Rori Bloom, 2009 Best known for the short novel Manon Lescaut Antoine Francois Prevost was also the author of a dictionary several important translations an extensive corpus of historical writing a dozen novels and more than twenty

volumes of journalism While much of his fiction is reminiscent of the adventure stories of baroque novelists Prevost's nonfiction expresses an encyclopedic ambition that prefigures the intellectual enterprises of the philosophes In her exploration of the tension between his novelistic and journalistic writing Rori Bloom argues that Prevost's novels employ established and even archaic attitudes toward authorship while his newspaper elaborates a new understanding of the roles of author and public By juxtaposing Prevost's novels and newspaper Bloom analyzes the sophisticated literary strategies through which this author constructed his complex professional identity Rori Bloom is an Assistant Professor of French in the Department of Romance Languages and Literatures at the University of Florida

**The Man of Letters As a Man of Business** William Dean Howells, 2014-05-15 I think that every man ought to work for his living without exception and that when he has once avouched his willingness to work society should provide him with work and warrant him a living I do not think any man ought to live by an art A man's art should be his privilege when he has proven his fitness to exercise it and has otherwise earned his daily bread and its results should be free to all There is an instinctive sense of this even in the midst of the grotesque confusion of our economic being people feel that there is something profane something impious in taking money for a picture or a poem or a statue Most of all the artist himself feels this
