on the other hand it talks all about the power of turmeric As a grocer Mr Rat could not only sell turmeric as a condiment and as a spice for cooking purposes but he also had easy access to the cure all for all ailments turmeric Scientific research in the West has found out that turmeric has antibiotic and germicidal qualities but that was already known in the ancient alternative medicine of the Orient and of the East It had to be a necessary part of the medical arsenal of every wise woman out there in ancient times because if she did not have easy access to the medicine man or to a physician she just had to resort to plain old turmeric So her family s cough and cold prevalent chest infections cuts wounds and even skin problems in her teenage kids with those pimples and skin blemishes could be cured by turmeric The idea that turmeric is used just as a spice giving flavor and a golden color to cuisine is slowly and steadily disappearing from the Western mind Instead they are getting to know more about its curative properties thanks to research telling them about Curcumin a natural product present in turmeric which keeps you safe healthy and also prevents cancer Chinese Greek Egyptian Indian and Oriental medicine knew all about the value of this rhizome since ancient times This plant belongs to the same family as the equally important curative Herb ginger The herb that you are going to get in the market is going to be a golden yellow powder made up of grinding dry rhizomes in a heavy duty grinder I remember one of the persuasive salesman trying to persuade my father to buy some of his hundred percent pure freshly ground in his own mill turmeric powder packaged in his own shop My father looked at him and told him last time I bought some of this hundred percent pure freshly packaged powder from the market I put a teaspoon full of it in the water and I have got enough of saffron dye mixed in it to dye a turban That shut the sales man up because that is when guilty conscience works Yes it is true the powder that you are going to get in the market today is possibly definitely not pure that is why it is necessary for you to use a grinder to grind the rhizomes This book is going to tell you all about the magic of turmeric and you are going to be surprised to know that you knew so less about this amazing herb spice Not only is it being used extensively to cure and prevent life threatening diseases but it can help save you a lot of headaches and possible financial expenditure related to your health in the future

[The Magic of Grapes To Cure and Heal](#) John Davidson, Dueep J. Singh, 2013-05-15 The Magic of Grapes To Cure and Heal Table of Contents Introduction The Global Scope of Grapes Grapes for Health Grapes to cure Possible Incurable Diseases Types of Grapes Difference between Wine Grapes and Table Grapes How Do You Grow Grapes Best Climate for Grapes Best Soil for Grapes Grapes from Seeds or from Young Vines Plenty of Water Making a Trellis for Your Vine Protecting Your Grapes from Birds Harvesting Your Grape Yield Difference between Sultanas Raisins and Grapes How to Get Grape Juice Resveratrol Christmas Fruitcake Traditional Carrot Pudding Using Grapes for Natural Cures Constipation Teething Problems Stress and Strain TB Dry Cough Flatulence and Digestion Related Problems Conclusion Introduction The moment you hear the word grapes you visualize a bunch of yellow or black purple delicious juicy fruit which you enjoy plucking off their stalks and popping in your appreciated mouth Believe it or not grapes are just about the only fruit which can be eaten in large quantities without any sort of harmful side effects The magic about grapes is that not only is this considered to be an extremely good way which you can cure yourself but it is also such a good and delicious easy to eat fruit that even fussy and finicky eaters who touch fruits and vegetables very rarely cannot resist a fistful of grapes The history of grapes goes back as long as mankind existed In

prehistoric times grapes were gathered in the jungles before man decided to cultivate them in his vineyards or gardens The Bible says that Noah grew grapes on his farm But before that the classical age of Greece had already assigned a God Dionysius as the God of grapes and wine and you can see him sporting around with the grape vine leaves around his head as he blesses his worshipers with the gift of the grapes wine The Romans called him Bacchus So when did wine get associated with grapes An old legend talks about a Georgian princess who was suffering from toothache around 8000 years ago No dentist would do anything for her so being a delicate dainty darling she said that she was going to kill herself because she could not bear the pain So she went around looking for something to eat which would put her out of her misery Now one of her could not care less slaves had left some grape juice neglected in an earthenware pot and it had been fermenting over a long time in its corner Naturally it gave out the fermenting aroma of grape wine which no one in that land had smelled before So the Princess grabbed this pot and drank everything and grew tipsy I am sure she woke up with a hangover but according to her her toothache was gone and she had slept and dreamt pleasantly of no pain Well that was how people began to think about the juice of the grape in its fermented form In the same way poetry talking about the wine of Shiraz going back more than 4000 years ago speaks about the importance of wine in the old Oriental legends Wine can be made from almost any vegetable or fruit yes I have heard of people making wine from vegetables too but that is rather an insult to the not so humble grape because this berry is best suited to give you enough of juice to make delicious sparkling wine which can either be champagne or can be ordinary table wine Also wine if not made from farm grown grapes ripen in the sun in their vineyards I consider to be sacrilege and really not worth appreciating or savoring Mark Twain in his hilarious book Innocents abroad talks about enjoying the adventure of he and his friends raiding an Italian vineyard at night when they reach Italy Now that should have been quite an intoxicating experience

region He remembers running after the gruff Afghani salesman saying Khan a Kharo Moshai which was a greeting to the Khan In return a gruff baritone would always answer Khara Moshay in return These vendors sold their products from door to door and one knew that they were going to be getting original spices dry fruits as well as natural Asafetida without any sort of adulteration That is why this spice is so expensive The call of these door to door salesman always used to be Heeng o jeera which meant Asafetida and cumin seeds That is why Asafetida cannot do without cumin seeds and vice versa when you are cooking a traditionally Eastern dish It is on par with saffron which is often adulterated with other dried flower stamens Pure Asafetida powder is going to have its particular smell and that is why it is not used more than one pinch to give any dish a taste of onions or leeks Since ancient times Asafetida has been used as a medicine to cure lots of ailments In the West it was considered to be the devils dung because of its fetid odor and lumpy yellowish dung like look That is why it was used in black magic rituals No wonder it got a notorious reputation in medieval times Any woman buying this spice would immediately be labeled as a Devil s disciple and would either be burned at the stake or ducked in the nearest pond However this sort of ritualism was definitely not a part of Eastern cuisine or Eastern ancient medical alternative medicine tradition This is also known as giant fennel and as fennel is traditionally called ajowain Asafetida was called jowani badian the badian meaning excellent in the vernacular So excellent fennel Tempering in the Indian subcontinent cannot do without Asafetida Every proud housewife has this ingredient in her kitchen and all she has to do is put clarified butter in the wok a hefty pinch of Asafetida and some onion seeds and mustard seeds When they start spluttering she empties out her lentils dish or meat dish on top of this red hot tempering oil It will be served sizzling hot to people who enjoy their food In many parts of India many people do not eat onions and garlic because traditionally they consider these herbs of not being a part of their ancient and traditional religious beliefs That is why a pinch of Asafetida was enough to give the food an onion taste South Indian food traditionally the sambhar you eat with traditional vegetarian foods like idli and dosai are tempered with a small bit of Asafetida so that this food is acceptable to even all those people who are extremely particular about garlic and onions in their diets This tempering is called Popu in South India and Tadka in North India

herbs have been used since ancient times to help keep people healthy beautiful and also youthful Remember that not everybody in grandma s time or even in the time of our ancestors could afford to go to the doctor In fact physicians were only restricted to people who could pay their exorbitant fees The rest of the common crowd made do with the knowledge that had been passed down to them by their ancestors and also from the knowledge gained through experimenting on their own This is how so many natural remedies came into vogue and so many of them proved to be successful Many of them were quack remedies but this was because many of the ingredients which were used here were rather astonishing when seen by a 21st century perspective Nevertheless there was some particular reason why these quack remedies proved to be successful because they had some material in them which was able to cure people Now let us take for example the use of goose grease for rubbing on the scalp to make the hair grow faster Goose grease is nothing but fatty oil It moisturized the scalp You could get the same results by rubbing in sheep fat So if our ancestors did not have one thing they made do with something approximating that item in their opinion So one had to use goose grease and passed on this knowledge to his descendants the coming generations began to believe that yes this was the product which would make your hair grow long lustrous and healthy It would also keep your scalp dandruff free Now what was the reason why so many people in ancient times kept healthy even though they lived in unhygienic surroundings Firstly they had a strong constitution and did not coddle themselves They knew the value of the sun and the fresh air and they stayed out as much as they could They just came home to rest eat and possibly recuperate if they suffered from some ailment or from injuries Also they were very particular about their diet They enjoyed plenty of fresh fruit and vegetables They also drank fresh milk in large quantities whenever they could as well as ate milk products like butter butter milk cheese and cottage cheese as often as they could and when they could afford it The wealth of a tribe depended on that the amount of cows and goats they had Other livestock was also very precious but these came paramount Whenever people of one tribe were attacked by people of other tribes the cry went up cows pigs horses goats and sheep first children second The young children along with the animals were hidden away with the elders who led the adults of the tribe do the fighting This fighting was done sometimes to the death by the men and women of the tribe The elders who were unable to fight were considered to be the people who would help the children survive with knowledge about their ancient heritage This was the time when herbal lore was passed down to the generations from the elders of the tribe to the young next generation and the youngest generation **The Magic of Art** Taylor
