## **The Making Of A Nation Biafra:**

*The Making of a Nation* Arthur Agwuncha Nwankwo, Samuel Udochukwu Ifejika, 1969      *The Nigeria-Biafra War* ,

**The Creation of States in International Law** James R. Crawford, 2007-03-15 Statehood in the early 21st century remains as much a central problem as it was in 1979 when the first edition of *The Creation of States in International Law* was published. As Rhodesia, Namibia, the South African Homelands and Taiwan then were subjects of acute concern today, governments, international organizations and other institutions are seized of such matters as the membership of Cyprus in the European Union, application of the Geneva Conventions to Afghanistan, a final settlement for Kosovo and still relations between China and Taiwan. All of these and many other disputed situations are inseparable from the nature of statehood and its application in practice. The remarkable increase in the number of States in the 20th century did not abate in the twenty five years following publication of James Crawford's landmark study which was awarded the American Society of International Law Prize for Creative Scholarship in 1981. The independence of many small territories comprising the residue of the European colonial empires alone accounts for a major increase in States since 1979 while the disintegration of Yugoslavia and the USSR in the early 1990s further augmented the ranks. With these developments the practice of States and international organizations has developed by substantial measure in respect of self-determination, secession, succession, recognition, decolonization and several other fields. Addressing such questions as the unification of Germany, the status of Israel and Palestine and the continuing pressure from non-State groups to attain statehood even in cases like Chechnya or Tibet against the presumptive rights of existing States, James Crawford discusses the relation between statehood and recognition, the criteria for statehood especially in view of evolving standards of democracy and human rights and the application of such criteria in international organizations and between states. Also discussed are the mechanisms by which states have been created including devolution and secession, international disposition by major powers or international organizations and the institutions established for Mandated Trust and Non-Self-Governing Territories. Combining a general argument as to the normative significance of statehood with analysis of numerous specific cases, this fully revised and expanded second edition gives a comprehensive account of the developments which have led to the birth of so many new states.

*Biafra* Arthur Agwuncha Nwankwo, Samuel Udochukwu Ifejika, 1969      **The Infinite Longing for Home** David C. L. Lim, 2005 This is a groundbreaking study of Ben Okri's and K. S. Maniam's literary problematization of home in relation to subjectivity and the nation within and beyond the context of Nigeria and Malaysia. Drawing on Lacan, Žižek, Laclau and Mouffe and weaving through history, politics, philosophy and literature, this book critically examines the motives and means by which peoples forced to live together in a country love and hate each other and overlook the truths about themselves, their actions and beliefs. It looks into why some embrace heterogeneity and open-endedness while others are internally compelled to over-identify passionately with their religion and race and to posit theirs as irreducibly distinct from and superior to others.

The Infinite Longing for Home also traces through Okri's and Maniam's writings a way out of today's political aporia a path to the re-creation of a new society humbled unified by the recognition of its participation in flawed humanity

**Nigeria's 2019 Democratic Experience** Egodi Uchendu, Olawari D. J. Egbe, 2022-06-06 Nigeria's democratisation efforts since attaining political independence from Britain have been tumultuous and have spanned over three successive republics A persistent bug decimating Nigeria's democracy and repeatedly leading to military coups has been brazen electoral violence perpetrated by the nation's political elite Nigeria's 2019 Democratic Experience analyses and explains what went wrong in Nigeria's experiment with democracy Nigeria Africa's most populous nation and the world's seventh most populous nation also contributes 70% of West Africa's population She is sub-Saharan Africa's largest oil producer and has remained Africa's largest economy by GDP since 2014 The country has hundreds of diverse ethnic nationalities and languages grouped into 36 states or federating units and an independent federal capital territory Though recognized as Africa's largest democracy her democratisation process since the 1960s has remained tumultuous with massive electoral violence and political intolerance This repeatedly compelled the military to intervene in the nation's political history in the years 1966 1983 and 1985 It is these developments that provided the motivation for this volume to capture for posterity the conduct of the 2019 General Elections in Nigeria

**Military Integration After Civil Wars** Florence Gaub, 2010-09-13 This book examines the role of multiethnic armies in post conflict reconstruction and demonstrates how they can promote peacebuilding efforts The author challenges the assumption that multiethnic composition leads to weakness of the military and shows how a multiethnic army is frequently the impetus for peacemaking in multiethnic societies Three case studies Nigeria Lebanon and Bosnia Herzegovina determine that rather than external factors it is the internal structures that make or break the military institution in a socially challenging environment The book finds that where the political will is present the multiethnic military can become a symbol of reconciliation and coexistence Furthermore it shows that the military as a professional identity can supersede ethnic considerations and thus facilitates cooperation within the armed forces despite a hostile post conflict setting In this the book challenges widespread theories about ethnic identities and puts professional identities on an equal footing with them The book will be of great interest to students of military studies ethnic conflict conflict studies and peacebuilding and IR in general Florence Gaub is a Researcher and Lecturer at the NATO Defence College in Rome She holds a PhD in International Politics from Humboldt University Berlin

**The Biafran War and Postcolonial Humanitarianism** Lasse Heerten, 2017-09-28 In the summer of 1968 audiences around the globe were shocked when newspapers and television stations confronted them with photographs of starving children in the secessionist Republic of Biafra This global concern fundamentally changed how the Nigerian Civil War was perceived an African civil war that had been fought for one year without fostering any substantial interest from international publics became Biafra the epitome of humanitarian crisis Based on archival research from North America Western Europe and Sub Saharan Africa this book is the first comprehensive study of the global history of the conflict A major addition to the flourishing history of human rights and humanitarianism it argues that the global moment Biafra is closely linked to the ascendance of human rights humanitarianism and Holocaust memory in a postcolonial world The conflict was a key episode for the re structuring of the relations between the West and the Third World *Schriften*

Venter,2016-02-19 Almost half a century has passed since the Nigerian Civil War ended But memories die hard because a million or more people perished in that internecine struggle the majority women and children who were starved to death Biafra s war was modern Africa s first extended conflict It lasted almost three years and was based largely on ethnic by inference tribal grounds It involved on the one side a largely Christian or animist southeastern quadrant of Nigeria which called itself Biafra pitted militarily against the country s more populous and preponderant Islamic north These divisions

almost always brutal persist Not a week goes by without reports coming in of Christian communities or individuals persecuted by Islamic zealots It was also a conflict that saw significant Cold War involvement the Soviets and Britain siding and supplying Federal Nigeria with weapons aircraft and expertise and several Western states Portugal South Africa and France especially providing clandestine help to the rebel state For that reason alone this book is an important contribution towards understanding Nigeria s ethnic divisions which are no better today than they were then Biafra was the first of a series of religious wars that threaten to engulf much of Africa Similar conflicts have recently taken place in the Ivory Coast Kenya Southern Sudan the Central African Republic Senegal Cassamance both Congo Republics and elsewhere As the war progressed Biafra also attracted mercenary involvement many of whom arriving from the Congo which had already seen much turmoil Western pilots were hired by Lagos and they flew the first Soviet MiG 17 jet fighters to have played an active role in a Western war Al Venter spent time covering this struggle He left the rebel enclave in December 1969 only weeks before it ended and claims the distinction of being the only foreign correspondent to have been rocketed by both sides first by Biafra s tiny Swedish built Minicon fighter planes while he was on a ship lying at anchor in Warri harbour and thereafter by MiG jets flown by mercenaries Among his colleagues inside the beleaguered territory were the celebrated Italian photographer Romano Cagnoni as well as Frederick Forsyth who originally reported for the BBC and then resigned because of the partisan pro Nigerian stance taken by Whitehall He briefly shared quarters with French photographer Giles Caron who was later killed in Cambodia Prior to that Venter had been working for John Holt in Lagos It is interesting that his office at the time was at Ikeja International Airport Murtala Muhammed today where the second Nigerian army mutiny was plotted and from where it was launched From this perspective he had a proverbial ringside seat of the tribal divisions that followed as hostilities escalated Venter took numerous photos while on this West African assignment both in Nigeria while he was based there and later in Biafra itself Others come from various sources including some from the same mercenary pilots who originally targeted him from the air

Biafra Roy Doron, 2025 The Nigerian Civil War 1967 1970 also known as the Biafran War remains one of the most politically charged and divisive issues in contemporary Nigerian politics During its three years of violence the war resulted in an astonishing number of deaths This included civilians who suffered starvation due to the siege which ultimately ended with no victors Biafra discusses the major political military and diplomatic factors that came to play in the war as well as the matters of genocide humanitarian relief and the memory of Biafra Author Roy Doron delineates the war s operational history from its origins to its military engagements failures in leadership international reactions and its resolution and legacy Biafra also examines how the country was affected after the war when Nigeria s military government imposed a no victors no vanquished policy in order to minimize further conflict and promote national unity Providing the first comprehensive narrative history of the Nigerian Civil War in more than 50 years Biafra offers a new basis for scholars and readers to understand one of postcolonial Africa s most devastating and consequential conflicts
