The Making Of The Modern Family:

The (Un)Making of the Modern Family Daniel Dagenais, 2009-05-01 The family institution is undergoing a radical transformation The modern meanings of kinship marriage parenthood gender and sexuality are now being questioned and debates on same sex marriages and parenthood or on divorce and blended families are reflective of these challenges The Un Making of the Modern Family is neither an indictment of the new family nor a rallying cry It is a classical exercise of family sociology that draws upon a range of disciplines history anthropology psychology and demography to provide an interpretive model for understanding contemporary changes in the family It explores traditional family forms in order to identify changes that gave birth to the ideal type of the modern family and it discusses how the modern family's constituent elements the family as institution conjugal and parent child relationships and gender and sexuality relate to modernity's central feature the concept of the individual By reconstructing an archetype of the modern family this book explains why individuals have experienced its deconstruction as a profound identity crisis It will appeal to anyone concerned with the future of the post modern family and society Published originally by Les Presses de l'Universit  Laval as *La fin de la famille moderne* this book was awarded the 2000 1 Prix Jean Charles Falardeau for the best book published in French in Canada in the field of social sciences

Christianity and the Making of the Modern Family Rosemary R. Ruether, 2001-07-13 How did a religion whose founding proponents advocated a shocking disregard of earthly ties come to extol the virtues of the traditional family In this richly textured history of the relationship between Christianity and the family Rosemary Radford Ruether traces the development of these centerpieces of modern life to reveal the misconceptions at the heart of the family values debate

The Making of the Modern Family Edward Shorter, 1975 *The Modern Family in Japan* Chizuko Ueno, 2009 This award winning book brings together Chizuko Ueno's groundbreaking essays on the rise and fall of the modern family in Japan Combining historical sociological anthropological and journalistic methodologies Ueno who is arguably the foremost feminist theoretician in Japan delineates in vivid detail how the family has been changing in form and function in the last hundred years In each chapter Ueno introduces the reader to a different facet of modern Japanese family life ranging from children who fantasize about being orphans to the elderly who confront pre senescence The central focus is on the housewife her history her ever changing responsibilities her ways of surviving mid life crisis This is an indispensable book for students and scholars seeking to understand modern Japan

Christianity and Social Systems Rosemary Radford Ruether, 2009 From the earliest interactions of Christians with the Roman Empire to today's debates about the separation of church and state the Christian churches have been in complex relationships with various economic and political systems for centuries Renowned theologian Rosemary Radford Ruether analyzes the ways the Christian church has historically interacted with powerful systems such as patriarchy racism slavery and environmentalism while looking critically at how the church shapes these systems today With a focus on the United States *Christianity and Social Systems* provides an introductory analysis of the

interactions between the churches and major systems that have shaped western Christian and post Christian society Ruether discusses ideologies such as liberalism and socialism and includes three country case studies Nicaragua South Africa and North and South Korea to further illustrate the profound influences Christianity and social systems have with each other This book is neither an attack on the relationship between Christianity and these systems nor an apology but rather a nuanced examination of the interactions between them By understanding how these interactions have shaped history we can more fully understand how to make ethical decisions about the role of Christianity in some of today s most pressing social issues from economic and class disparities to the environmental crisis The Family and Its Future Katherine Elliott,2009-09-16
