H. S. Jayewardene, D. J. N. Jayasuriya, 1981     **Correctional Institutions** Robert Melvin Carter, Daniel Glaser, Leslie T. Wilkins, 1977 This second edition of readings on correctional and penal institutions answers admirably the present need of the campus community for a general all purpose text and that of the correctional practitioner and administrator for an up to date review of the literature of the field For the nonprofessional interested citizen the anthology provides a general portrait of these institutions seen in both theoretical and practical perspectives Not only does this edition present an historical review of correctional and penal institutions and examine the current state of achievement but it serves a particular need in pointing to the requirements of the future Foreword     **Privatizing Correctional Institutions** Gary W. Bowman, 2023-04-14 With more than one million people behind bars the United States imprisons a larger share of its population than any other industrialized nation This has precipitated a serious overcrowding problem with federal and state prisons currently operating well beyond capacity Conventional efforts appear unable to cope with the increasing shortage of beds or with inadequate rehabilitation services A bold solution is required increasingly it is being seen to reside in the private sector This timely volume explores the issues of private versus public financing construction and management of medium and high security prisons Private prisons are not a new concept in the United States They have existed in several forms since the eighteenth century The opening chapters evaluate historical cases of prisons for profit examining the concerns of labor abuses of inmates and the source and resolution of disputes between private and public sectors These chapters argue that the experience gained through privatization does not justify current opposition from civil libertarians or labor unions Chapters dealing with the modern contracting out of complete management and limited services document the growing trend toward privatization and instances of public private partnership in prison industries The assembled evidence indicates clearly that privately run prisons have shown significant cost savings and good quality of provision for prisoners while still being profitable However the authors caution that these promising results must be reinforced by public safeguards in the contracting stage and monitoring to assure good service and security With the American prison system in disarray the public interest demands that government look beyond the public or private identity of those who wish to provide correctional services and focus instead on who can provide the best services at a given cost It is essential to state that correctional services should attain several objectives and not merely cost minimization The analysis and recommendations presented here will aid in the task Privatizing Correctional Institutions will be of interest to law enforcement officials public policy analysts penologists and criminologists     Encyclopedia of Prisons and Correctional Facilities Mary Bosworth, 2004-12-15 Click Additional Materials for downloadable samples The two volume Encyclopedia of Prisons and Correctional Facilities aims to

provide a critical overview of penal institutions within a historical and contemporary framework The United States has the highest incarceration rate in the world a fact that has caused lawmakers advocates and legal professionals to rethink punishment policies as well as develop new policies on prisoner education and rehabilitation Issues of race gender and class are fully integrated throughout in order to demonstrate the complexity of the implementation and intended results of incarceration The Encyclopedia contains biographies articles describing important legal statutes and detailed and authoritative descriptions of the major prisons in the United States Comparative data and examples are employed to analyze the American system within an international context The Encyclopedia s 400 entries are all written by recognized authorities The appendix contains a comprehensive listing of every federal prison in the U S complete with facility details and service information Key Themes Juvenile Justice Labor Prison Architecture Prison Populations Prison Reform Privatization Race Gender Class Security and Classification Sentencing Policy and Laws Staff Theories of Punishment Treatment Programs Editorial Board Stephanie Bush Baskette National Council on Crime and Delinquency NCCD Jeanne Flavin Fordham University Esther Heffernan Edgewood College Jim Thomas Northern Illinois University *The Development of Wisconsin's Administration of Charities and Corrections and Present Trends in the United States* Eleanor Jeanne Flynn, 1926 **Special Needs Offenders in Correctional Institutions** Lior Gideon, 2012-09-14 Effective treatment and preparation for successful reintegration can be better achieved if the needs and risks of incarcerated offenders are taken into consideration by correctional practitioners and scholars Special Needs Offenders in Correctional Institutions offers a unique opportunity to examine the different populations behind bars e g chronically and mentally ill homosexual illegal immigrants veterans radicalized inmates etc as well as their needs and the corresponding impediments for rehabilitation and reintegration Author Lior Gideon takes a rehabilitative and reiterative approach to discuss and differentiate between the needs of these various categories of inmates and provides in depth discussions not available in other correctional texts about the specific needs risks and policy recommendations when working with present day special needs offenders Each chapter is followed by suggested readings and relevant websites that will enable readers to further enhance understanding of the issues and potential solutions discussed in the chapter Further each chapter has discussion questions specifically designed to promote class discussions The text concludes with a theoretical framework for future policy implications and practices
