Believing Is Seeing Michael Guillen, PhD, 2021-09-07 Is your worldview enlightened enough to accommodate both science and God at the same time Dr Michael Guillen a best selling author Emmy award winning journalist and former physics instructor at Harvard used to be an Atheist until science changed his mind Once of the opinion that people of faith are weak small minded folks who just don t understand science Dr Guillen ultimately concluded that not only does science itself depend on faith but faith is actually the mightiest power in the universe In Believing Is Seeing Dr Guillen recounts the fascinating story of his journey from Atheism to Christianity pulling back the curtain on the mystery of faith as no one ever has by citing the latest discoveries in Neuroscience Physics Astronomy Mathematics Is it true that seeing is believing Or is it possible that reality can be perceived most clearly and logically through the eyes of faith and religion and that truth is bigger than proof Let Dr Guillen be your apologetics guide as he brilliantly argues for a large and enlightened worldview consistent with both God and modern science
