Baador Jobava Richard Rapport and even World Champion Magnus Carlsen have played The London System In this light it is surprising that so little has been published about this fascinating universal weapon GM Alfonso Romero and FM Oscar de Prado have now filled this gap In The Agile London System they present both historical material and recent top level examples to provide a comprehensive overview The authors explain the typical plans and tactics using illustrative games with clear verbal explanations and provide lots of tactical and strategic exercises They reveal the secrets behind sharp ideas such as the Barry Attack and the Jobava Attack and have added an exciting chapter on the especially aggressive Pereyra Attack developed by the Argentinean master Manuel Pereyra Puebla

its versatility      **Max Euwe's Best Games** Jan Timman, 2022-05-22 World Chess Champion Max Euwe who held the title from 1935-1937 is one of the greatest chess players in history. Much has been written about him and he authored dozens of books himself. But missing was an outstanding collection of games of this efficient man eating tiger as the American grandmaster Reuben Fine once called Euwe. Max Euwe's Best Games fills this gap. And it couldn't have been written by anyone else than Euwe's successor in Dutch chess Jan Timman, World Championship finalist and arguably one of the leading chess analysts of our time. This book offers eighty of Max Euwe's games annotated with great clarity starting in his early twenties when he worked his way to the world top up until his late seventies when he was still a force to be reckoned with. It is incredible how high Euwe's level of play was for over fifty years and how attractive his attacking style was. Timman made many discoveries in Euwe's best and most famous games but has also unearthed several lesser-known brilliancies. Some interesting paradoxes are addressed along the line. For example, although he was an amateur almost his entire life, Euwe was better versed in opening theory than most of his top-level opponents. Although he was the underdog, he beat the mighty Alexander Alekhine in an epic World Championship Match in 1935. At 52, he could still beat top players like Geller and Najdorf with fantastic attacking play in the Zurich Candidates Tournament. And when he was over seventy, he was still highly dangerous for the new upcoming Dutch generation. This game collection of an often underrated World Champion analysed by top grandmaster Jan Timman is a must-have for anyone interested in World Championship chess.

**Alexander Alekhine's Best Games** Alexander Alekhine, 2011-12-23 Alekhine's games and writings inspired me from an early age. I fell in love with the rich complexity of his ideas at the chessboard. I hope readers of this book will feel similarly inspired by Alekhine's masterpieces. From the foreword by Garry Kasparov: Alexander Alekhine captivated the chess world with his dazzling combative play. His genius has been a strong influence on every great player since none more so than Garry Kasparov. This book contains a selection of the very best of Alekhine's annotation of his own games converted to algebraic by John Nunn. These games span his career from the early encounters with Lasker, Tarrasch and Rubinstein through his world title battles to his meetings with the new generation of players who were to dominate chess in the 1950s.
