DADA, Surrealism, and the Cinematic Effect R. Bruce Elder, 2015-10-15 This book deals with the early intellectual reception of the cinema and the manner in which art theorists philosophers cultural theorists and especially artists of the first decades of the twentieth century responded to its advent While the idea persists that early writers on film were troubled by the cinema's lowly form this work proposes that there was another largely unrecognized strain in the reception of it Far from anxious about film's provenance in popular entertainment some writers and artists proclaimed that the cinema was the most important art for the moderns as it exemplified the vibrancy of contemporary life This view of the cinema was especially common among those whose commitments were to advanced artistic practices Their notions about how to recast the art media or the forms forged from those media's materials and the urgency of doing so formed the principal part of the conceptual core of the artistic programs advanced by the vanguard art movements of the first half of the twentieth century This book a companion to the author's previous *Harmony Dissent* examines the Dada and Surrealist movements as responses to the advent of the cinema

Nerlekar, 2024 The Oxford Handbook of Modern Indian Literatures is a compilation of scholarship on Indian literature from the 19th century to the present in a range of Indian languages On one hand because of reasons associated with national academic structures publishing resources and global visibility English writing gets privileged over all the other linguistic traditions in the scholarship on Indian literatures On the other hand within the scholarship on regional language literary productions in Hindi Marathi Bengali etc the critical works and the surveys focus only on that particular language and therefore frequently suffer from a lack of comparative breadth and or global access Both reflect the paradigm of monolingualism within which much literary scholarship on Indian literature takes place This handbook instead focuses on the multilingual pathways through which modern Indian literature gets constituted It features cutting edge literary criticism from at least seventeen languages and on traditional literary genres as well as more recent ones like graphic novels It shows the deep connections and collaborations across genres languages nations and regions that produce a literature of diverse contact zones generating innovations on form aesthetics and technique Foregrounding themes such as modernity and modernism gender caste diaspora and political resistance the book collects an array of perspectives on this vast topic

MacNeish,1993 **Architecture for a Free Subjectivity** Dr Simone Brott,2013-06-28 Architecture for a Free Subjectivity reformulates the French philosopher Gilles Deleuze s model of subjectivity for architecture by surveying the prolific effects of architectural encounter and the spaces that figure in them For Deleuze and his Lacanian collaborator Félix Guattari subjectivity does not refer to a person but to the potential for and event of matter becoming subject and the myriad ways for this to take place By extension this book theorizes architecture as a self actuating or creative agency for the liberation of purely impersonal effects Imagine a chemical reaction a riot in the banlieues indeed a walk through a city Simone Brott declares that the architectural object does not merely take part in the production of subjectivity but that it constitutes its own This book is to date the only attempt to develop Deleuze s philosophy of subjectivity in singularly architectural terms Through a screening of modern and postmodern American and European works this provocative volume draws the reader into a close encounter with architectural interiors film scenes and other arrangements while interrogating the discourses of subjectivity surrounding them and the evacuation of the subject in the contemporary discussion The impersonal effects of architecture radically changes the methodology just as it reimagines architectural subjectivity for the twenty first century *Moon's Justice - Book 1 - The Beginning* Joe Haynes,2024-11-07 The Hawthorn twins Alex and Tina aren t just high society they re werewolves for hire navigating a world where power is currency and danger hides behind every glittering smile In the heart of Monte Carlo they ve been tasked with charming the
