Small Worlds:

Small Worlds Duncan J. Watts, 2018-06-05 Everyone knows the small world phenomenon soon after meeting a stranger we are surprised to discover that we have a mutual friend or we are connected through a short chain of acquaintances In his book Duncan Watts uses this intriguing phenomenon colloquially called six degrees of separation as a prelude to a more general exploration under what conditions can a small world arise in any kind of network The networks of this story are everywhere the brain is a network of neurons organisations are people networks the global economy is a network of national economies which are networks of markets which are in turn networks of interacting producers and consumers Food webs ecosystems and the Internet can all be represented as networks as can strategies for solving a problem topics in a conversation and even words in a language Many of these networks the author claims will turn out to be small worlds How do such networks matter Simply put local actions can have global consequences and the relationship between local and global dynamics depends critically on the network's structure Watts illustrates the subtleties of this relationship using a variety of simple models the spread of infectious disease through a structured population the evolution of cooperation in game theory the computational capacity of cellular automata and the synchronisation of coupled phase oscillators Watts's novel approach is relevant to many problems that deal with network connectivity and complex systems behaviour in general How do diseases or rumours spread through social networks How does cooperation evolve in large groups How do cascading failures propagate through large power grids or financial systems What is the most efficient architecture for an organisation or for a communications network This fascinating exploration will be fruitful in a remarkable variety of fields including physics and mathematics as well as sociology economics and biology

Masters of Small Worlds Stephanie McCurry,1995-05-11 In this innovative study of the South Carolina Low Country author Stephanie McCurry explores the place of the yeomanry in plantation society the complex web of domestic and public relations within which they were enmeshed and the contradictory politics of slave society by which that class of small farmers extracted the privileges of masterhood from the region s powerful planters Insisting on the centrality of women as historical actors and gender as a category of analysis this work shows how the fateful political choices made by the low country yeomanry were rooted in the politics of the household particularly in the customary relations of power male heads of independent households assumed over their dependents whether slaves or free women and children Such masterly prerogatives practiced in the domestic sphere and redeemed in the public explain the yeomanry s deep commitment to slavery and ultimately their ardent embrace of secession By placing the yeomanry in the center of the drama McCurry offers a significant reinterpretation of this volatile society on the road to Civil War Through careful and creative use of a wide variety of archival sources she brings vividly to life the small worlds of yeoman households and the larger world of the South Carolina Low Country the plantation South and nineteenth century America

The Small Worlds of Corporate Governance Bruce Mitchel Kogut,2012 The financial crisis of 2008 laid bare the hidden network of relationships in corporate governance who owes what to whom and who will stand by whom in times of crisis This book maps the influence of these types of economic and social networks on corporate behaviour and governance

Big League Dreams (Small Worlds) Allen Hoffman,2011-06-21 Big League Dreams finds the Krimsk Rebbe and many of his flock in Saint Louis on a Saturday the Sabbath in the summer of 1920 In Saint Louis it is the summer of 1920 and the day is the Sabbath but there is little rest for the Jews from Krimsk and less reverence for the wondrous Krimsker Rebbe who led them to the New World seventeen years before The rebbe s former hasidim have embraced America to discover that the vision of gold in the streets evokes larceny in the heart Matti Sternweiss the ungainly studious child wonder in Krimsk now the cerebral catcher for the St Louis Browns is scheming to fix Saturday s game against the pennant contending Detroit Tigers It is an American Sabbath Prohibition bookies the criminal syndicate the Hiberian fellowship of the police brass hometown blondes a bootlegging rabbi and big league baseball It is also Krimsk in America Boruch Levi the successful junkman confiscates his zany crippled brother in law Barasch s sizable bets Barasch s lusty wife Malka has her own connubial reasons for wanting to stop the gambling the chief of police fatefully inspires his loyal disciple Boruch Levi to bring Matti before the Krimsker Rebbe on the Sabbath in order to preserve the purity of the national pastime Recluse and wonder worker messianist and pragmatist the Krimsker Rebbe navigates the muddy Mississippi River haunted by a recurring prophetic vision of Pharaoh s blood red Nile In the final decisive innings with Matti crouched behind home plate it will come down to Ty Cobb versus the kabbalah Richly imagined

populated with robust complex characters Big League Dreams is a profoundly original inspiring and comic creation It is the second volume in the series Small Worlds which follows the people of Krimsk and their descendants in America Russia Poland and Israel In each volume Allen Hoffman draws on his deep knowledge of Jewish religion and history to evoke the finite yet infinite small worlds his characters inhabit **Decision Making** David E. Bell, Howard Raiffa, Amos Tversky, 1988-10-28 A compilation of different approaches normative descriptive and prescriptive develops this integrated analysis of decision making that emphasizes the contributions of various disciplinary interests *50 Fantastic Ideas for Small World Provocations* Judit Horvath, 2017-04-06 _____ The 50 Fantastic Ideas series is packed full of fun original skills based activities for Early Years practitioners to use with children aged 0 5 Each activity features step by step guidance a list of resources and a detailed explanation of the skills children will learn Creative simple and highly effective this series is a must have for every Early Years setting Small world play offers a wide range of learning opportunities for young children Acting out narratives and ideas through the manipulation of small or miniature equipment tools toys and objects helps children to respond to their environment Play becomes representative of real life situations and is a medium through which children can explore their own feelings about these events and experiences in a safe and productive way The frequent inclusion of sensory elements in this play also deepens experiences Small world play is rich in possibilities for specific thematic learning such as gathering information about spaces positions colours and cultures Small world play is entertaining challenging motivating and allows children to use their imaginations and decide on their own play choices Many practitioners find it challenging to continually renew the play environment but this book suggests ideas for how to ensure a meaningful play content that replicates environments or scenarios that children can connect to using a large variety of resources from natural materials to specific props Presented in the accessible practical and flexible 50 Fantastic Ideas format Judit Horvath's book is a compendium of ideas that will ensure you get the most out of small world play in your setting without over stimulating and distracting the children involved Small Worlds Allen Hoffman, 1996-10-01 Classic in its vision and generosity this extraordinary novel follows the lives and loves of the villagers of Krimsk a small Hasidic settlement in Eastern Europe in 1903 The first volume in Allen Hoffman's critically acclaimed series Small Worlds takes place in 1903 and introduces the wondrous rebbe of Krimsk a small Hasidic settlement in Eastern Europe Secluded in his study for the past five years the beloved rebbe suddenly emerges on the eve of Tisha B Av the holiday for commemorating the destruction of the holy temple in Jerusalem His congregants are overjoyed to see him but their joy is to be short lived for this holiday at the dawn of the twentieth century will be marked by strange and momentous events that will change their lives forever Small Worlds is the first in a series of novels concerning the people of Krimsk and their descendants in America Poland Russia and Israel In each volume Allen Hoffman draws on his deep knowledge of Jewish religion and history to evoke the small worlds his characters inhabit Echoes of Jewish literary tradition can be heard in Small Worlds especially the mystical realism of

Isaac Bashevis Singer and the poignant humor of Sholom Aleichem on whose tales *Fiddler on the Roof* is based *Artificial Intelligence in Medicine* Werner Horn, Yuval Shahar, Greger Lindberg, Steen Andreassen, Jeremy Wyatt, 2003-05-21 This book constitutes the refereed proceedings of the Joint European Conference on Artificial Intelligence in Medicine and Medical Decision Making AIMDM 99 held in Aalborg Denmark in June 1999 The 27 full papers and 19 short papers presented in the book together with four invited papers were selected from 90 submissions The papers are organized in topical sections on guidelines and protocols decision support systems knowledge based systems and cooperative systems model based systems neural nets and causal probabilistic networks knowledge representation temporal reasoning machine learning natural language processing and image processing and computer aided design *Readings in Formal Epistemology* Horacio Arló-Costa, Vincent F. Hendricks, Johan van Benthem, 2016-06-07 This volume presents 38 classic texts in formal epistemology and strengthens the ties between research into this area of philosophy and its neighbouring intellectual disciplines The editors provide introductions to five subsections Bayesian Epistemology Belief Change Decision Theory Interactive Epistemology and Epistemic Logic Formal epistemology is a term coined in the late 1990s for a new constellation of interests in philosophy the origins of which are found in earlier works of epistemologists philosophers of science and logicians It addresses a growing agenda of problems concerning knowledge belief certainty rationality deliberation decision strategy action and agent interaction and it does so using methods from logic probability computability decision and game theory The volume also includes a thorough index and suggestions for further reading and thus offers a complete teaching and research package for students as well as research scholars of formal epistemology philosophy logic computer science theoretical economics and cognitive psychology *Information Worlds* Paul T. Jaeger, Gary Burnett, 2010-04-05 The authors present a multi level theory of Information Worlds to investigate the ways in which information creates the social worlds of people Building upon the foundational works of Library and Information Studies LIS scholar and theorist Elfreda Chatman and philosopher Jurgen Habermas as well as from theory and research from a wide range of other fields the theory of information worlds can serve as a theoretical driver both in LIS studies and across other disciplines that study information issues enriching and expanding our understanding of the multi layered role of information in society Testing their theory through application to a variety of real world issues Burnett and Jaeger tackle the topics of libraries and information provision the value assigned to information by differing social groups information access and exchange international information policies the role of information in democracy and technological change Information Worlds provides a framework for empirical investigations into the fascinating and very real social dimensions of information **Maritime Networks in the Ancient Mediterranean World** Justin Leidwanger, Carl Knappett, 2018-11-22 This volume brings together scholars of Mediterranean archaeology ancient history and complexity science to advance theoretical approaches and analytical tools for studying maritime connectivity For the coast hugging populations of the ancient Mediterranean mobility and exchange depended on a

distinct environment and technological parameters that created diverse challenges and opportunities making the modeling of maritime interaction a paramount concern for understanding cultural interaction more generally Network inspired metaphors have long been employed in discussions of this interaction but increasing theoretical sophistication and advances in formal network analysis now offer opportunities to refine and test the dominant paradigm of connectivity Extending from prehistory into the Byzantine period the case studies here reveal the potential of such network approaches Collectively they explore the social economic religious and political structures that guided Mediterranean interaction across maritime space
