Being Young, Male and Saudi Mark C. Thompson,2019-10-03 Based on remarkable primary research this unique contemporary account of the lives of young Saudi men reveals a distinct group of voices **A Malay-English dictionary** Richard James Wilkinson,1901 *Routledge Handbook on Arab Media* Nouredine Miladi,Noha Mellor,2020-11-29 This handbook provides the first comprehensive reference book in English about the development of mass and social media in all Arab countries Capturing the historical as well as current developments in the media scene this collection maps the role of media in social and political movements Contributors include specialists in the field from North America Europe and the Middle East Each chapter provides an overview of the history regulatory frameworks and laws governing the press and socio political functions of the media While the geopolitical complexities of the region have been reflected in the expert analyses collectively the focus is always the local context of each member state All 38 chapters consider the specific historical political and media trajectories in each country to provide a contextual background and foundation for further study about single states or comparative analysis in two or more Arab states Capturing significant technological developments and the widespread use of social media this all inclusive volume on Arab media is a key resource for students and scholars interested in journalism media and Middle East studies *Mapping Agency* Ulrike Lorenz-Carl,Martin Rempe,2016-05-13 Despite regionalism having developed into a global phenomenon the European Union EU is still more often than not presented as the role model of regionalism whose institutional designs and norms are adopted by other regional actors and organizations as part of a rather passive downloading process Reaching beyond such a Eurocentric perception Mapping Agency provides an empirically rich African perspective on regionalisms in Sub Saharan Africa It adopts an actor centred approach but departs from a rather simplified understanding of agency as exerting power and instead scrutinizes to what extent actors actually participate in or are excluded from processes of regionalism The value of this volume derives from the inclusion of historical dimensions its open multi actor approach to both formal and informal processes and its comparative perspective within but also beyond Sub Saharan Africa The chapters offer a multifaceted picture of agency beyond disciplinary divides where the EU is one actor amongst many and where local national regional and global state and non state actors shape and sometimes break processes of regionalisms in Sub Saharan Africa Armed Conflict and Forcible Displacement Elena Katselli Proukaki,2018-03-05 This book addresses the involuntary and arbitrary displacement of individuals resulting from armed conflict and gross human rights violations It shows that forcible displacement constitutes a serious violation of international

law and of fundamental community interests Armed Conflict and Forcible Displacement provides a critical legal analysis of the contemporary international framework permeating forcible displacement in these circumstances and explores the rights that individuals possess with specific focus on the right not to be displaced and where this fails the right to return home and to receive property restitution In doing so this volume marries together different fields of international law and builds on the case studies of Cyprus Colombia Cambodia and Syria While the case studies considered here are far from exhaustive they are either little explored or present significant challenges due to the magnitude of displacement or contested international jurisprudence Through this analysis the volume exposes some of the legal challenges that individuals encounter in being protected from forcible displacement as well as the legal obstacles that persist in ensuring the return of and the recovery of property by the displaced It will be of interest to those interested in the fields of international law human rights law as well as conflict and war studies *Diversity across the Arabian Peninsula* Fabio Gasparini, Kamala Russell, Janet C.E.

Watson, 2024-10-17 This edited volume brings together a diverse and rich set of contributions on the Arabian Peninsula Ranging from history field linguistics and cultural studies these essays address the diversity of languages ways of life and natural environments that have marked the region throughout its history The book stems from the intellectual exchange and collaboration fostered by a virtual workshop that met regularly in 2020 21 and which drew participants from within and beyond the academy The contributions gathered in this volume highlight the need for a better understanding of a region that hosts a vast amount of culturally and linguistically diverse material often in a precarious state of conservation *Diversity Across the Arabian Peninsula* argues for the importance of holistic community based and interdisciplinary approaches to linguistic endangerment and deep social and cultural changes there is no documentation of language without attention to language use the material lifeworld and its ecology and social and cultural setting Such research is enriched and made more impactful through collaboration with communities and scholars from the Global South The essays in this volume thus spearhead a contextualized study of South Arabian linguistic varieties and their connection with the natural and cultural world they inhabit **Saudi Arabia and the United Arab Emirates** Robert Mason, 2023-01-24 The year 1973 is usually

considered the great equaliser among major oil producers But the Visions strategies of Saudi Arabia and the United Arab Emirates a so called middle power and small state in the Middle East regional system point to broadening economic relations as a great enhancer of economic power This book explores the impact of regime type and leadership style on the two countries foreign policies It reveals how autonomy and influence threat perception and alliance patterns are folded into the complex and personal royal politik and economic statecraft that sit at the core of their international relations *Palestinians in Jerusalem and Jaffa, 1948* Itamar Radai, 2015-12-14 Between November 1947 and May 1948 war between the Palestinian Arab community and the Jewish community encompassed Palestine with Jerusalem and Jaffa becoming focal points in the conflict due to their centrality size and symbolic importance *Palestinians in Jerusalem and Jaffa 1948* examines Palestinian

Arab society institutions and fighters in Jerusalem and Jaffa during the conflict It is one of the first books in English that deals with the Palestinian Arabs at this crucial and tragic moment in their history with extensive use of Arabic sources and an inquiry from the Palestinian vantage point It examines the causes of the social collapse of the Palestinian Arab communities in Jerusalem and Jaffa during the 1948 inter communal war and the impact of this collapse on the military defeat This book reveals that the most important internal factors to the Palestinian defeat were the social changes that took place in Arab society during the British Mandate namely internal migration from rural areas to the cities the shift from agriculture to wage labour and the rise of the urban middle class By looking beyond the well established external factors this study uncovers how modernity led to a breakdown within Palestinian Arab society widening social fissures without producing effective institutions and thus alienating social classes both from each other and from the leadership With careful examination of a range of sources and informed analysis of Palestinian social history Palestinians in Jerusalem and Jaffa 1948 is a key resource for students and scholars interested in the modern Middle East Palestinian Studies the Arab Israeli conflict and Israel Studies

Revolutions in the MENA Region Leonid Issaev, Andrey Korotayev, 2022-11-05 This book offers a comparative perspective on the new wave of revolutions in the MENA region Recently a new wave of revolutions has swept the Middle East and North Africa MENA region comparable in some respects to the events of the Arab Spring Revolutionary events have significantly changed the political regimes in Sudan Algeria and Mali while Lebanon and Iraq have also witnessed serious revolutionary episodes Further a new quality of protests has manifested in Iran Egypt Morocco and Jordan Presenting a variety of country studies this book identifies similarities and differences between the events of the Arab Spring and the current upheavals in the MENA region and examines their causes and world system context It also analyzes the motivating forces goals and organizational forms of the protesters and other actors involved as well as the political and economic consequences of these revolutionary events Moreover it seeks to understand why some countries that were actively involved in the Arab Spring have remained largely unaffected by these developments The book appeals to scholars of political science with a focus on comparative politics Middle Eastern politics and political sociology *Science Journalism in the Arab World* Abdullah

Alhuntushi, Jairo Lugo-Ocando, 2023-01-01 This book examines the main issues and challenges that science journalism faces in the MENA region while analyzing how journalists in these countries cover science and engage with scientists Most countries in the Middle East and North Africa region have set an ambitious goal for 2030 to transform their societies and become knowledge economies This means modernizing institutions and encouraging people to embrace Science Technology Engineering and Mathematics as part of their daily lives This book claims that the main vehicle to achieve this goal is science news reporting as it continues to be the main platform to disseminate scientific knowledge to the general public Simultaneously it is also poorly equipped to achieve this task Interviewing dozens of journalists the authors looked at specific areas such as the gender divide and its effects on science news reporting as well as the role of religion and culture in shaping

journalism as a political institution The authors conclude that traditional normative assumptions as to why science reporting does not live up to expectations need to be reviewed in light of other more structural problems such as lack of skills and specialization in science communication in the region In so doing the book sets out to understand the past present and future of science news in one of the most challenging regions in the world for journalists
