Reports [declassified Versions] to the U.S. Atomic Energy Commission on Nuclear Power Reactor Technology

U.S. Atomic Energy Commission,1953 Atomic Bomb Island Don A. Farrell,2021-01-15 Atomic Bomb Island tells the story of an elite top secret team of sailors airmen scientists technicians and engineers who came to Tinian in the Marianas in the middle of 1945 to prepare the island for delivery of the atomic bombs then being developed in New Mexico to finalize the designs of the bombs themselves and to launch the missions that would unleash hell on Japan Almost exactly a year before the atomic bombs were dropped strategically important Tinian was captured by Marines because it was only 1 500 miles from Japan and its terrain afforded ideal runways from which the new B 29 bombers could pound Japan In the months that followed the U S turned virtually all of Tinian into a giant airbase with streets named after those of Manhattan Island a Marianas city where the bombs could be assembled the heavily laden B 29s could be launched and the Manhattan Project scientists could do their last work Don Farrell has done this story incredible justice for the 75th anniversary The book is a thoroughly researched beautifully illustrated mosaic of the final phase of the Manhattan Project from the Battle of Tinian and the USS Indianapolis to Hiroshima and Nagasaki Collections of the Kansas State Historical Society Franklin George Adams,George Washington Martin,William Elsey Connelley,2025-07-11 Reprint of the original first published in 1890 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage *Networked Systems* Armando Castañeda,Constantin Enea,Nirupam Gupta,2024-08-24 This book constitutes the refereed proceedings of the 12th International Conference on Networked Systems NETYS 2024 held in Rabat Morocco during May 29 31 2024 The 14 full papers and 3 short papers presented were carefully reviewed and selected from 42 submissions NETYS aims to bring together researchers and engineers from the theory and practice of distributed and networked systems The scope of the conference covers all aspects related to the design and the development of networked systems e g cloud systems formal verification concurrent and distributed algorithms data management data science and parallel concurrent distributed programming Additionally this year NETYS also featured works on the emerging topic of distributed machine learning also commonly referred to as federated learning *The Sing Sing Files* Dan Slepian,2024-09-10 An NBC Dateline producer s cinematic account of his two decade journey navigating the broken criminal justice system to help free six innocent men In 2002 Dan Slepian a veteran producer for NBC s Dateline received a tip from a Bronx homicide detective that two men were serving twenty five years to life in prison for a 1990 murder they did not commit Haunted by what the detective had told him Slepian began an investigation of the case that eventually resulted in freedom for the two men and launched Slepian on a two decade personal and professional journey into a deeply flawed justice system fiercely resistant to rectifying or even

acknowledging its mistakes and their consequences The Sing Sing Files One Journalist Six Innocent Men and a Twenty Year Fight for Justice is Slepian's account of challenging that system The story follows Slepian on years of prison visits court hearings and street reporting that led to a series of powerful Dateline episodes and eventually to freedom for four other men and to an especially deep and lasting friendship with one of them Jon Adrian JJ Velazquez From his cell in Sing Sing JJ aided Slepian in his investigations until his own release in 2021 after decades in prison Like Bryan Stevenson's Just Mercy The Sing Sing Files is a deeply personal account of wrongful imprisonment and the flaws in our justice system and a powerful argument for reckoning and accountability Slepian's extraordinary book at once painful and full of hope shines a light on an injustice whose impact the nation has only begun to confront [Collections of the Kansas State Historical Society ...](#)

Securities and Exchange Commission, 1992 **Hiroshima Nagasaki** Paul Ham, 2014-08-05 A history and analysis of the WWII nuclear bombings of Japan from a master of engrossing and exciting narrative Los Angeles Review of Books In this harrowing history of the Hiroshima and Nagasaki bombings Paul Ham argues against the use of nuclear weapons drawing on extensive research and hundreds of interviews to prove that the bombings had little impact on the eventual outcome of the Pacific War More than 100 000 people were killed instantly by the atomic bombs mostly women children and the elderly Many hundreds of thousands more succumbed to their horrific injuries later or slowly perished of radiation related sickness Yet American leaders claimed the bombs were our least abhorrent choice and still today most people believe they ended the Pacific War and saved millions of American and Japanese lives In this gripping narrative Ham demonstrates convincingly that misunderstandings and nationalist fury on both sides led to the use of the bombs Ham also gives powerful witness to its destruction through the eyes of eighty survivors from twelve year olds forced to work in war factories to wives and children who faced the holocaust alone Hiroshima Nagasaki presents the grisly unadorned truth about the bombings blurred for so long by postwar propaganda and transforms our understanding of one of the defining events of the twentieth century Praise for Hiroshima Nagasaki Moral anger drives Mr Ham Ordinary Japanese Mr Ham believes were less emperor worshiping fanatics than victims of an authoritarian elite that prolonged the war with no regard for their hardships The Wall Street Journal Ham presents a forceful argument that the bombing was excessive and unjustified In this sweeping and comprehensive history Ham details the geopolitical considerations and huge egos behind evolving theories of warfare But most powerful are the eyewitness accounts of 80 survivors ordinary people caught up in the events of war Booklist starred review *California.
