The Many Faces Of The Divine Concilium 1995 :

A Theology of Conversation Stephen Okey, 2018 Sometimes described as a theologian's theologian David Tracy's scholarship has impacted countless thinkers around the globe The complexity of his thought however has often made engaging his work into a daunting challenge Combining analysis of the most influential features of Tracy's theology theological method the religious classic public theology with a retrieval of his more overlooked interests Christology God Stephen Okey presents the essential themes of Tracy's career in accessible and insightful prose *Early Jewish and Christian Monotheism* Loren T. Stuckenbruck, Wendy North, 2004-05-01 Early Christology must focus not simply on historical but also on theological ideas found in contemporary Jewish thought and practice In this book a range of distinguished contributors considers the context and formation of early Jewish and Christian devotion to God alone the emergence of monotheism The idea of monotheism is critically examined from various perspectives including the history of ideas Graeco Roman religions early Jewish mediator figures scripture exegesis and the history of its use as a theological category The studies explore different ways of conceiving of early Christian monotheism today asking whether monotheism is a conceptually useful category whether it may be applied cautiously and with qualifications or whether it is to be questioned in favor of different approaches to understanding the origins of Jewish and Christian beliefs and worship This is volume 1 in the Early Christianity in Context series and volume 263 in the Journal for the Study of the New Testament Supplement Series

Concilium, Vol. 1995/2. The many faces of the divine, 1995 **Unbroken Communion** Kathleen Anne McManus, 2004-01-01 The reality of suffering is the greatest challenge to faith in the goodness of creation and the possibility of salvation Edward Schillebeeckx not only takes this into account but dialectically incorporates the reality of suffering into a theology generally defined by its focus on the interrelated themes of creation salvation and eschatological hope In *Unbroken Communion* Kathleen Anne McManus O P traces the origins of Schillebeeckx's thought its development and its consequences Schillebeeckx grounds his entire theological project in the promise of a divine human future made visible in creation and entrusted to human freedom Because suffering is so tangibly present in human experience it provides the means dialectically of imaging the horizon of our hope It is thus that Schillebeeckx turns suffering into hope Asian Christian Theologians in Dialogue with Buddhism Kenneth Fleming, 2002 This book is a study of three of Asia's most respected contemporary theologians Kosuke Koyama Choan Seng Song and Aloysius Pieris It gives an introduction to Asian Buddhism and the Christian dialogue with Buddhists in Asia Furthermore it examines the work of each theologian in detail looking at the method and content of their dialogue and outlining its impact upon their respective theologies The book provides a critique of their dialogue and engages with the theological issues that have emerged In areas such as religious identity theological method and liberation theology it is shown that their conversation with Buddhism contributes to the development of a genuinely Asian theology and moreover raises important challenges to the worldwide theological community churches and to

Metaphysics of Mystery Marijn de Jong,2020-02-06 How can we theologically reflect on universality in a world that increasingly focuses on particularities and differences Marijn de Jong argues that the question of universality calls for a reconceptualized form of metaphysical theology which he finds in the work of Karl Rahner and Edward Schillebeeckx Casting a new light on these theologians de Jong demonstrates that their methods contain a dialectical interrelation of hermeneutics and metaphysics an interrelation which seemingly has been lost in more recent hermeneutical theology Rahner and Schillebeeckx carefully balance particularity and universality without falling prey to relativist or absolutist ways of reasoning By analyzing fundamental themes such as experience and interpretation nature and grace faith and reason and intelligibility and mystery de Jong reveals the modest theological metaphysics that lies at the heart of their methods This critical retrieval

demonstrates the enduring relevance of these thinkers and opens up new avenues of thought for theologians that do not want to shy away from the difficult question of the universality of God *New SCM Dictionary of Christian Spirituality* Philip Sheldrake, 2013-05-20 This dictionary attempts to give direct access to the development of Christian Spirituality It is a series of pieces written by experts to provide instant accurate and thought provoking information of high scholarship **Covenant and the Metaphor of Divine Marriage in Biblical Thought** Sebastian R.
