## **The Lunn Log:**

*Stack the Logs!* Frank F. Lunn, 2004-02 Facing adversity is a part of life. It is up to those challenged as to how these obstacles will impact their lives. In this inspiring new book *Stack the Logs: Building a Success Framework to Reach Your Dreams*, Frank F. Lunn describes how his relationship with his late father and his young son's devastating diagnosis of leukemia led to a new formula for success based on a tried and true philosophy. The result is a remarkable lesson on how we can get the most out of life. Lunn, who has a successful entrepreneurial background, engages you from the very first pages. He describes an experience with his father which provided the foundation for the book and details his own son's frightening fight against cancer. Lunn tells of a simple note in a birthday card from his father about how stacking the logs one at a time, making life choices one by one, was the only route to success and how it suddenly became clear this simplistic idea was truly profound. Frank F. Lunn was living a normal busy life when he received a phone call that stopped time. His eight-year-old son had just been diagnosed with leukemia. The next six months were a struggle for the entire Lunn family as they battled with Frankie against a cancer of the blood and bone marrow, a cancer very similar to what ironically had defeated Lunn's father four years earlier. At the time of his son's illness, the premise for this book was still in its infancy. It is based on his father's homespun advice to stack the logs, one decision and choice stacked on top of another until success is achieved. *The Log*, 1945-07

*Visions of empire* Brad Beaven, 2017-02-01 The emergence of a vibrant imperial culture in British society from the 1890s both fascinated and appalled contemporaries. It has also consistently provoked controversy among historians. This book offers a ground-breaking perspective on how imperial culture was disseminated. It identifies the important synergies that grew between a new civic culture and the wider imperial project. Beaven shows that the ebb and flow of imperial enthusiasm was shaped through a fusion of local patriotism and a broader imperial identity. Imperial culture was neither generic nor unimportant but was instead multi-layered and recast to capture the concerns of a locality. The book draws on a rich seam of primary sources from three representative English cities. These case studies are considered against an extensive analysis of seminal and current historiography. This renders the book invaluable to those interested in the fields of imperialism, social and cultural history, popular culture, historical geography, and urban history. *Log Home Living*, 1999-12
