The Magic Dolphin Ileno Zona, 2020-09-03 The Magic Dolphin is a delightful children's story about helping others. It teaches children to take the time to help others in need and the magic that can happen when they do. **Dolphin Healing**

Horace E. Dobbs, 2015-11-05 Internationally renowned dolphin expert Dr Horace Dobbs tells the incredible story of over two decades work with dolphins and reveals new research that shows how dolphins can inspire us not only with their beauty and intelligence they can also heal us physically and emotionally. Dobbs explores possible scientific explanations for the healing power of dolphins which he supports with many heart warming tales of personal transformation. These stories include that of Bill who after swimming with dolphins was completely cured after 12 years of depression. Lilo who's terminal cancer regressed and the incredible story of Eve a severely autistic girl who uttered her first word good after meeting a dolphin. The book also examines the success of organised dolphin healing around the world including the work of the famous Dolphin Healing Centre in Kyoto Japan. Inspiring and deeply moving Dolphin Healing heralds a breathtaking new development in communications between humans and dolphins.

The Magic of Dolphins Horace E. Dobbs, 1990

Our Dolphin Ancestors Frank Joseph, 2016-03-17 Reveals the shared ancestry behind our affinity with dolphins and our shared destiny. Explains how we are both descendants of the aquatic ape and still share many physiological features with dolphins that set us apart from other primates. Explores dolphins communication with other species and how dolphin therapy has miraculous effects on people with autism, cancer, stroke and depression. Explores the connections between dolphins and Atlantis and Lemuria. Wild animals avoid contact with humans but wild dolphins seek us out to play and socialize even going so far as to voluntarily rescue people from drowning. What explains this remarkable natural affinity? Revealing the evolutionary basis for our special relationship with dolphins. Frank Joseph explains how we are both descendants of the same ancient branch of humanity. Building upon the aquatic ape theory he details how we both began on land but devastating floods forced our distant ancestors into the seas where humanity developed many of the traits that set us apart from other primates such as our instinctive diving reflex and our newborns ability to swim. But while some of the aquatic apes returned to land later evolving into modern humans some remained in the cradle of Mother Ocean and became our dolphin cousins. Integrating scientific research on dolphin intelligence, communication and physiology with enduring myths from some of the world's oldest cultures such as the Aborigines, Norse, Greeks and Celts the author examines our physical commonalities with dolphins including their vestigial thumbs and legs, birth processes and body temperature. He explores dolphins uncanny ability to diagnose disease such as cancer in humans and how dolphin therapy has had miraculous effects on children with autism, victims of stroke and those suffering from depression. He provides evidence for dolphins different attitudes toward men, women and children, their natural affinity with cats and dogs and their telepathic communication with other species including ours. He explores dolphins mysterious role in the birth of early civilization and their connections with the Dog Star Sirius and Atlantis and Lemuria.
