**The Magic Zoo** Peter Costello,1979      [The Magic Zoo](#) Peter Costello (fl. ),1979      **The A to Z of Fantasy Literature** Brian Stableford,2009-08-13 Once upon a time all literature was fantasy set in a mythical past when magic existed animals talked and the gods took an active hand in earthly affairs As the mythical past was displaced in Western estimation by the historical past and novelists became increasingly preoccupied with the present fantasy was temporarily marginalized until the late 20th century when it enjoyed a spectacular resurgence in every stratum of the literary marketplace Stableford provides an invaluable guide to this sequence of events and to the current state of the field The chronology tracks the evolution of fantasy from the origins of literature to the 21st century The introduction explains the nature of the impulses creating and shaping fantasy literature the problems of its definition and the reasons for its changing historical fortunes The dictionary includes cross referenced entries on more than 700 authors ranging across the entire historical spectrum while more than 200 other entries describe the fantasy subgenres key images in fantasy literature technical terms used in fantasy criticism and the intimately convoluted relationship between literary fantasies scholarly fantasies and lifestyle fantasies The book concludes with an extensive bibliography that ranges from general textbooks and specialized accounts of the history and scholarship of fantasy literature through bibliographies and accounts of the fantasy literature of different nations to individual author studies and useful websites      [Cryptozoology A To Z](#) Loren Coleman,Jerome Clark,2013-05-07 The ultimate quest for the world s most mysterious creatures The Loch Ness Monster Bigfoot the Abominable Snowman these are the names of the elusive beasts that have caught the eye and captured the imaginations of people around the world for centuries Recently tales of these monsters have been corroborated by an increase in sightings and out of these legends a new science has been born cryptozoology the study of hidden animals Cryptozoology A to Z the first encyclopedia of its kind contains nearly two hundred entries including cryptids the name given to these unusual beasts new animal finds and the explorers and scientists who search for them Loren Coleman one of the world s leading cryptozoologists teams up with Jerome Clark editor and author of several encyclopedias to provide these definitive descriptions and many never before published drawings and photographs from eyewitnesses detailed accounts Full of insights into the methods of these scientists exciting tales of discovery and the history and evolution of this field Cryptozoology A to Z is the most complete reference ever of the newest zoological science      **Anthropology and Cryptozoology** Samantha Hurn,2016-11-03 Cryptozoology is best understood as the study of animals which in the eyes of Western science are extinct unclassified or unrecognised In consequence and in part because of its selective methods and lack of epistemological rigour cryptozoology is often dismissed as a pseudo science However there is a growing recognition that social science can benefit from engaging with it for as social scientists are very well aware scientific categorisation and explanation represents just one of a myriad of systems used by humans to enable them to classify and make sense of the world around them In many cultural contexts myth folk

classification and lived experience challenge the truth expounded by scientists With a reflexive anthropological approach and drawing on rich empirical and ethnographic studies from around the world this volume engages with the theoretical and methodological issues raised by reported sightings of unrecognised animals Bringing into sharp focus the anthropological value and challenges for methodology posed by beliefs about unclassified creatures Anthropology and Cryptozoology Exploring encounters with mysterious creatures will be of interest to anthropologists sociologists and geographers working in the fields of research methods anthrozoology mythology and folklore and human animal interaction
