golfers Dave's philosophy is as simple as it is revolutionary and groundbreaking. Instead of practicing the wrong things the right way or the right things the wrong way, Pelz shows you how to find your own personal weaknesses and how to improve them to efficiently lower your scores. Packed with all the knowledge, charts, and photos needed to learn from the master, Dave Pelz's Short Game Bible is the essential book for every golfer who's looking to improve his or her game. Dave's approach to golf is easy to understand. 80 percent of the strokes golfers lose to par are determined by their play within 100 yards of the green, the crucial scoring game. The most important and yet the least focused on aspect of golf, your short game, can indeed make or break your entire game. And nobody teaches the short game like Dave Pelz. His renowned golf schools and clinics focus exclusively on putting and the short game, attracting top players like Tom Kite, Colin Montgomerie, two-time U.S. Open champion Lee Janzen, reigning PGA champion Vijay Singh, Steve Elkington, Payne Stewart, Peter Jacobsen, and many LPGA players including Annika Sorenstam and Liselotte Neumann. The pros know as you are about to learn that while others teach golfers how to swing, Dave Pelz teaches golfers how to score and win. A former physicist for NASA, Dave brings a scientific rigor to his research and instruction that has made him the top short game expert in the world. Dave has observed and then taught thousands of golfers to improve their ability to score better. The years he has spent studying the short game, including chipping, lob shots, pitches, distance wedges, and bunker play, have resulted in an unequaled expertise and a fascinating body of knowledge on golf, with the statistics and data to back it up. In this new book, Dave, for the first time, shares the understanding and techniques he has taught the pros, including a wide array of innovative tests and exercises for mastering those deceptive and high-pressure shots of the short game. Dave Pelz's Short Game Bible is an essential book for golfers of all levels. Covering everything golfers need to know to improve their short game, Dave's system can and will help you to consistently shoot lower scores.

This volume records the proceedings of the 22nd Annual International Conference of the International Simulation and Gaming Association (ISAGA 15), 19 July 1991, Kyoto, Japan, sponsored by the Science Council of Japan and the Japanese Association of Simulation and Gaming (JASAG). The conference theme was Global Modeling for Solving Global Problems. The first 2 days of the conference were held in the magnificent Kyoto International Conference Hall; the 3rd day was spent admiring the floats of the famous Gion Festival in the exquisite city of Kyoto and the Daibutsu or Great Buddha of the Todaiji Temple in Nara, and visiting one of the Sharp factories. During the last 2 days of the conference, we were made most welcome in the Faculty of International Relations of Ritsumeikan University. The day after the conference, a number of delegates went to Hiroshima, the Peace Memorial Hall, Museum, and Park, and also to one of Japan's Scenic Trio, the island of Miyajima, with its breathtaking views and the Itsukushima Shrine. The conference was attended by some 400 delegates from over 30 different countries. Over 100 sessions, both theoretical and practical, were given; keynote speeches, round table discussions, workshops, papers. This volume reflects most of those sessions in the form of either a full paper or a short abstract.
