Project Management for Research and Development Lory Mitchell Wingate,2014-08-05

Today s leading organizations recognize the importance of research and development R D to maintain and grow market share If companies want to survive into the future they must accelerate their R D to market cycles or find themselves behind the competition

Project Management for Research and Development Guiding Innovation for Positive R D Outcomes explains how to apply proven project management methods to obtain positive outcomes in R D and innovation projects It addresses the specific factors companies must consider when using project management to scope define and manage R D projects It also offers best practices and case studies that illustrate actual applications of theory This book details methods to help readers optimize results in R D through the use of structured processes derived from the project management field and other complementary disciplines Each chapter includes diagrams surveys checklists and question answer forms to guide readers in determining where their activity falls along a project spectrum and to help them structure their own R D project The methods presented in this book can easily be applied to innovation projects and creative endeavors As there are limited sources of information on how to utilize project management methodology effectively in these types of projects this book is an ideal resource for anyone looking to add structure and proven methods to enable R D innovation and other creative activities

Research and Development Management: From the Soviet Union to Russia Christoph M. Schneider,2013-11-11

In the past intensive interest in Soviet research and development has been sporadic both in the West and in the USSR The end of the 1980s coincided with the demise of the Soviet model of economic development As a result a surge of attention has been given to t e factors driving the motor of Soviet growth and development as well as R D The opening first of the Soviet and subsequently of the Russian economy finally exposed it to global stan to scientific dards The long period of international isolation with respect and technological exchanges made it difficult for scholars and policy makers at home and abroad to measure the status of Soviet advances Consequently some overrated the levels while others underestimated them Now it comes to light that although the Soviets put the first satellite in space Sputnik and developed their own hydrogen bomb these were more the exceptions of innovation from research results rather than the rule Therefore as the management of the entire economy increasingly malfunctioned so did the management of R D in contributing to economic growth and development There is no denying the incredible investment of the former Soviet state in domestic science and research The R D community was one of the largest if not the largest in the world during the second half of the twentieth century Now Russia has inherited not only this enormous resource but also the inadequate organization management and structure
