The Great Rebellion of 1857 in India Biswamoy Pati,2010-02-25 Interdisciplinary in focus this title explores the areas of gender colonial fiction white marginal groups the tribal movements and penal laws and associates them with the event It presents alternatives views and expands and complicates the conceptual boundaries of the Rebellion **Dishonoured by History** Meena Radhakrishna,2001 This book explores how colonial policies converted itinerant groups on the one hand into a source of cheap labour and on the other into a category known as criminal tribes It also examines missionary activity especially the Salvation Army in the Madras Presidency in the nineteenth century **Beastly encounters of the Raj** Saurabh Mishra,2017-03-01 This is the first full length monograph to examine the history of colonial medicine in India from the perspective of veterinary health The history of human health in the subcontinent has received a fair amount of attention in the last few decades but nearly all existing texts have completely ignored the question of animal health This book will not only fill this gap but also provide fresh perspectives and insights that might challenge existing arguments At the same time this volume is a social history of cattle in India Keeping the question of livestock at the centre it explores a range of themes such as famines agrarian relations urbanisation middle class attitudes caste formations etc The overall aim is to integrate medical history with social history in a way that has not often been attempted Coolies of Capitalism Nitin Varma,2018-05-07 Coolie is a generic category for the unskilled manual labour The offering of services for hire had various pre colonial lineages In the nineteenth century there was an attempt to recast the term in discursive constructions and material practices for mobilized immobilized labour Coolie labour was often proclaimed as a deliberate compromise straddling the regimes of the past slave labour and the future free labour It was portrayed as a stage in a promised transition The tea plantations of Assam like many other tropical plantations in South Asia were inaugurated and formalized during this period They were initially worked by the locals In the late 1850s the locals were replaced by labourers imported from outside the province who were unquestioningly designated coolies in the historical literature Qualifying this framework of transition local to coolie labour and introduction of coolie labour this study makes a case for the production of coolie labour in the

history of the colonial capitalist plantations in Assam The intention of the research is not to suggest an unfettered agency of colonial capitalism in defining and producing coolies with an emphasis on the attendant contingencies negotiations contestations and crises The study intervenes in the narratives of an abrupt appearance of the archetypical coolie of the tea gardens i e imported and indentured and situates this archetype s emergence sustenance and shifts in the context of material and discursive processes Health and Medicine in the Indian Princely States Waltraud Ernst, Biswamoy Pati, T.V.
