imperfections with these old texts we feel they deserve to be made available for future generations to enjoy *Now Read On* Malachi Edwin Vethamani, John McRae, 2005-08-12 *Now Read On* brings together literatures in English from around the world combining an excellent choice of texts with sound methodological guidance. It contains approximately eighty texts and extracts from countries and continents including Africa, Australia, Great Britain, India, Malaysia, New Zealand, Philippines, Singapore. Designed as a course for both native and non-native English speakers in how to read literature, this anthology begins with shorter starter texts and questions and develops in complexity as the reader progresses through the book. *Now Read On* provides the user with hands-on experience of working with a plurality of texts from around the world, questions, exercises, pointers, and commentary accompanying all the passages of literature and providing the student with the tools and confidence to critically evaluate any text and an understanding of the major genres: poetry, short stories, drama, and novels. Try Looking Ahead Jason Rodriguez, 2015-06-01 This poignant YA collection of Twilight Zone inspired short stories is a stunning assortment of modern-day twists on classic fables and science-fiction standards featuring a diverse array of children including a girl who can live in yesterday, a boy who can see through mountains, and a closet monster hunter who doesn't have much but makes the most of what they have. Their victories may be small but they are their own, whether it's winning a go-kart race, righting wrongs, or learning that perseverance is a victory in and of itself. *Fly Until You Die* Chia Youyee Vang, 2019-03-05 During the Vietnam War, the US Air Force secretly trained pilots from Laos, skirting Lao neutrality in order to bolster the Royal Lao Air Force and their own war efforts. Beginning in 1964, this covert project, Water Pump, operated out of Udorn Airbase in Thailand with the support of the CIA. This Secret War required recruits from the Vietnam border region willing to take great risks, a demand that was met by the marginalized Hmong ethnic minority. Soon, dozens of Hmong men were training at Water Pump and providing air support to the US-sponsored clandestine army in Laos. Short and problematic training that resulted in varied skill levels, ground fire, dangerous topography, bad weather conditions, and poor aircraft quality, however, led to a nearly 50 percent casualty rate, and those pilots who survived mostly sought refuge in the United States after the war. Drawing from numerous oral history interviews, *Fly Until You Die* brings their stories to light for the first time in the words of those who lived it.
