wealth of new information and provocative insights Contributors argue that programs to hold schools accountable for student performance must be carefully designed to assure that schools are treated fairly that vouchers if used should be directed toward low income families that resources do indeed matter poor school districts may well require additional funding to increase student learning In addition to the editor the contributors include Charles T Clotfelter David K Cohen Richard F Elmore Ronald F Ferguson Susan H Fuhrman Eric A Hanushek Caroline Minter Hoxby Richard J Murnane John F Witte and John McHenry Yinger

Conservative Philanthropies and Organizations Shaping U.S. Educational Policy and Practice Kathleen deMarrais,Brigette A. Herron,Janie Copple,2020-09-10 American public education has been under assault for the last few decades as a broken system that needs a complete overhaul In large part these opinions are offered by people and organizations who know little about schools But who are these influencers This book is about conservative philanthropies the organizations and individuals within their networks and the strategies they use to shape educational policy and practice in K 12 and higher education Each chapter examines a philanthropy philanthropic network or corporation focused on pushing an agenda of individualism privatization and conservative ideologies Based in extensive research including the tax filings of specific philanthropic foundations the authors demonstrate how the philanthropic elite work within federal state and local governmental contexts to influence policy and practice Within a global context of increasing wealth inequality the authors question the motivations of these privileged few to withhold tax dollars from the US treasury where duly elected representatives can determine how tax dollars are used to benefit society By allowing these philanthropic organizations tax exemptions under the guise of assumed benevolence are citizens giving up their ability to hold these organizations accountable for how the money is spent This book aimed at a general audience of educators provides the in depth knowledge necessary to understand and resist private control of public policies and institutions

search terms facilitating ease of use by both on campus students and distance learners A Chronology provides students with historical perspective on the sociology of education *The Gates Foundation and the Future of US "Public" Schools* Philip E. Kovacs, 2010-11 What are the implications when the educational policy and priority of public schools are concentrated in ways that foster de unionization and teacher de skilling while homogenizing school models and curriculum This volume addresses this crucial unanswered question while investigating the impact of the Gates Foundation on education *America*, 1912 The Jesuit review of faith and culture Nov 13 2017 **The Public School Advantage** Christopher A. Lubienski, Sarah Theule Lubienski, 2013-11-07 Nearly the whole of America's partisan politics centers on a single question Can markets solve our social problems And for years this question has played out ferociously in the debates about how we should educate our children From the growth of vouchers and charter schools to the implementation of No Child Left Behind policy makers have increasingly turned to market based models to help improve our schools believing that private institutions because they are competitively driven are better than public ones With *The Public School Advantage* Christopher A and Sarah Theule Lubienski offer powerful evidence to undercut this belief showing that public schools in fact outperform private ones For decades research showing that students at private schools perform better than students at public ones has been used to promote the benefits of the private sector in education including vouchers and charter schools but much of these data are now nearly half a century old Drawing on two recent large scale and nationally representative databases the Lubienskis show that any benefit seen in private school performance now is more than explained by demographics Private schools have higher scores not because they are better institutions but because their students largely come from more privileged backgrounds that offer greater educational support After correcting for demographics the Lubienskis go on to show that gains in student achievement at public schools are at least as great and often greater than those at private ones Even more surprising they show that the very mechanism that market based reformers champion autonomy may be the crucial factor that prevents private schools from performing better Alternatively those practices that these reformers castigate such as teacher certification and professional reforms of curriculum and instruction turn out to have a significant effect on school improvement Despite our politics we all agree on the fundamental fact education deserves our utmost care *The Public School Advantage* offers exactly that By examining schools within the diversity of populations in which they actually operate it provides not ideologies but facts And the facts say it clearly education is better off when provided for the public by the public
