How Men Turn Women Into Nothing Andrey Davydov, Olga Skorbatyuk, 2014-08-27 Every woman considers herself an individual In vain as regardless of race ethnicity profession and so on no woman is an individual Every woman lives as man programmed her to live as it is convenient for him as he wants her to Women do not even suspect who produces images for what they consider their Self and why By studying the history of world culture literature pictorial art architecture music science etc it is easy to trace that men usurped everything that had to do with images as ideas for creation of anything And from time immemorial women were left with a role of stupid consumers and performers and it was made sure that women think that they women are creators too But women did not participate in the birth of any product which begins with a sketch and in turn a sketch begins with an idea and an idea begins with an image Yes women weaved embroidered painted cloth and sometimes sewed But based on sketches made by whom Based on sketches and patterns created by men The essence of this process is to forbid women from creating images and under any excuse to never allow women to do it ever Excuses used are from rudest and degenerative What are you trying to do you fool Go make me a sandwich instead or Do you not hear your baby crying to the most romantic and poetic You are my muse just be near inspire me you are so beautiful Men s intent is simple to have total control over the psyche and the physiology of any woman because an image is the basis of functioning of any person Providing an image to a woman ensures that she will live and function strictly according to this image Also an image is the basis for control of any person as well as the basis of knowledge about her him Men create images Therefore they know exactly what image is behind this or that behavior of a woman In other words they know how she will think act present herself what she will want strive for and seek from men as well So a woman does not even suspect that she is like an open book for any man even if he sees her for the first time But women are sure that images that they use including for construction of their Self Image that they consider their individuality are a secret Borrowing images that were made up by men from cultural sources and using them to form her personality her way of life any woman strongly believes in her unrepeatability originality and uncognizability What do you think who gave women this assurance and why In other words men achieved what they wanted from potential goddesses women were made into logs a resource a consumable material from which a man can make whatever he likes Men use women for all and any of their needs Today women are allowed everything even to pretend that they create images too Only women are not aware that they make their creations solely on the basis of those artificial images which have already been thought up by men and have been put into women for centuries from generation to generation in the process of domestication Women are celebrating victory but none of them wonder why

for example a couple of centuries ago there were no women filmmakers litterateurs painters scientists or politicians Or why in the history of humans their percentage ratio is so low Or how many prime ministers there were before Margaret Thatcher and what was their gender Or in what century there was the first female president And so on Even a quick historical review readily available statistics make it clear that women are allowed only into already constructed and functioning system built by men And women are allowed to act only based on and within images that the system dictates Women lost the war between the sexes Since the time of birth women are being made into logs with legs spread wide as an indication of their main purpose to participate in the reproduction of the human race and be pleasant toys in the hands of men Most important is to not forget to tell women who love through their ears that they are wonderful priceless how much men love them and depend on them Long ago women were programmed to believe in any nonsense instead of seeing and analyzing facts as well as history

Structure, Consciousness, and History Richard Harvey Brown, Stanford M. Lyman, 1978-08-31 First published in 1978 this volume is addressed to the crisis prevailing in the social and cultural sciences The authors explore the conflict between positivism and romanticism between hard and soft sociological research methods and between objectivity and subjectivity conflicts that were particularly acute in sociology at the time of publication All of the essays adopt the approach of symbolic realism or cognitive aesthetics to overcome the dualism in conventional sociological theory This strategy of symbolic realism is a philosophical amalgam forged from findings in existential phenomenology ordinary language philosophy and pragmatism It establishes a legitimate basis for the application of aesthetic criteria to truth seeking in the social sciences The synthesis emergent from these essays suggests a paradigm with broad implications for all the human studies Students of culture will find this volume a provocative point of departure for their own investigations

Littell's Living Age Eliakim Littell, Robert S. Littell, 1883 Littell's Living Age, 1908 **The War on Sex** David M. Halperin, Trevor Hoppe, 2017-03-09 The past fifty years are conventionally understood to have witnessed an uninterrupted expansion of sexual rights and liberties in the United States This state of the art collection tells a different story while progress has been made in marriage equality reproductive rights access to birth control and other areas government and civil society are waging a war on stigmatized sex by means of law surveillance and social control The contributors document the history and operation of sex offender registries and the criminalization of HIV as well as highly punitive measures against sex work that do more to harm women than to combat human trafficking They reveal that sex crimes are punished more harshly than other crimes while new legal and administrative regulations drastically restrict who is permitted to have sex By examining how the ever intensifying war on sex affects both privileged and marginalized communities the essays collected here show why sexual liberation is indispensable to social justice and human rights Contributors Alexis Agathocleous Elizabeth Bernstein J Wallace Borchert Mary Anne Case Owen Daniel McCarter Scott De Orio David M Halperin Amber Hollibaugh Trevor Hoppe Hans Tao Ming Huang Regina Kunzel Roger N Lancaster Judith Levine Laura Mansnerus Erica R Meiners R Noll Melissa Petro Carol Queen
