Household Horror Marc Olivier,2020-02-11 A scholar examines 14 everyday objects featured in horror films and how they manifest their power and speak to society s fears Take a tour of the house where a microwave killed a gremlin a typewriter made Jack a dull boy a sewing machine fashioned Carrie s prom dress and houseplants might kill you while you sleep In Household Horror Marc Olivier highlights the wonder fear and terrifying

dimension of objects in horror cinema Inspired by object oriented ontology and the nonhuman turn in philosophy Olivier places objects in film on par with humans arguing for example that a sleeper sofa is as much the star of *Sisters* as Margot Kidder that *The Exorcist* is about a possessed bed and that *Rosemary's Baby* is a conflict between herbal shakes and prenatal vitamins Household Horror reinvigorates horror film criticism by investigating the unfathomable being of objects as seemingly benign as remotes radiators refrigerators and dining tables Olivier questions what Hitchcock's *Psycho* tells us about shower curtains What can we learn from Freddie Krueger's greatest accomplice the mattress Room by room Olivier considers the dark side of fourteen household objects to demonstrate how the objects in these films manifest their own power and connect with specific cultural fears and concerns Provides a lively and highly original contribution to horror studies As a work on cinema it introduces the reader to films that may be less well known to casual fans and scholars more conspicuously it returns to horror staples gleefully reanimating works that one might otherwise assume had been critically done to death *Psycho* *The Exorcist* *The Shining* Allan Cameron University of Auckland      *Evaluation of Elastomers as Gasket Materials in Pneumatic and Hydraulic Systems* C. W. Bright, 1972 In the search for superior materials from which to make gaskets for pneumatic and hydraulic systems promising materials were selected and tested The testing was conducted in two phases Those materials that passed the tests of Phase 1 were tested in Phase 2 and categorized in the order of preference      **NASA Technical Note** United States.
