Smoking and Politics A. Lee Fritschler, 1969 **Smoking and Politics** A. Lee Fritschler, 1983 *Smoking Policy* Robert L. Rabin, Stephen D. Sugarman, 1993 Public and governmental attitudes toward tobacco use are dramatically different today when compared to the attitudes of the mid 1960s Smoking then was widely regarded as a mark of sophistication and a natural companion at work and play The accumulating evidence on the serious health risks of smoking to both smokers and nonsmokers has changed those sentiments Now tobacco use is increasingly a target of cultural disapproval both in social circles and in the regulatory arena *Smoking Policy* Law Politics and Culture examines the interplay between public opinion and governmental action as norms have changed about whether one should smoke and where it is appropriate to do so In this study an interdisciplinary team from law public health communications political science and sociology addresses a wide range of tobacco control issues Topics covered include the politics of smoking control lawsuits by smokers against the tobacco industry the strategies of employers and insurers in discouraging smoking lessons from drug and alcohol control the conversion of smoking from a health issue into a moral issue the enforcement of no smoking rules and the impact of tobacco advertising controls This volume provides a comprehensive exploration of both institutional and informal mechanisms regulating tobacco use in late twentieth century America The contributors assess the roles played by public officials corporations and insurers the scientific public health and medical communities and opinion leaders *Smoking Policy* is essential reading for policymakers and advocates professionals in law public health and social science fields corporate officials and those generally interested in issues of smoking and public health **The Cigarette** Sarah Milov, 2019-10-02 Los Angeles Times Book Prize Finalist Winner of the Willie Lee Rose Prize Winner of the PROSE Award in United States History Hagley Prize in Business History Finalist A Smithsonian Best History Book of the Year Vaping gets all the attention now but Milov's thorough study reminds us that smoking has always intersected with the government for better or worse New York Times Book Review From Jamestown to the Marlboro Man tobacco has powered America's economy and shaped some of its most enduring myths The story of tobacco's rise and fall may seem simple enough a tale of science triumphing over corporate greed but the truth is more complicated After the Great Depression government officials and tobacco farmers worked hand in hand to ensure that regulation was used to promote tobacco rather than protect consumers As evidence of the connection between cigarettes and cancer grew scientists struggled to secure federal regulation in the name of public health What turned the tide Sarah Milov reveals was a new kind of politics a movement for nonsmokers rights Activists took to the courts the streets city councils and boardrooms to argue for smoke free workplaces and allied with scientists to lobby elected officials *The Cigarette* puts politics back at the heart of tobacco's rise and fall dramatizing the battles over corporate influence individual choice government regulation and science A nuanced and ultimately devastating indictment of government complicity with the worst excesses of American capitalism New Republic An impressive work of scholarship

The Political Reconstruction of American Tobacco, 1862-1933 Patrick Mulford O'Connor, 2025-06-03 A deeply researched and clearly argued account of the mutual growth of the federal government and the modern tobacco Nearly everything about the United States tobacco economy changed in the generation following the American Civil War From labor to consumption manufacturing to regulation tobacco was utterly reconstructed comparatively a new industry as one contemporary wrote The Political Reconstruction of American Tobacco 1862 1933 exposes the causes of these changes and in the process it reconsiders cornerstones of the American national narrative Through a detailed rendering of tobacco s late nineteenth century political economy this book argues that the federal state s and American capitalism s development were mutually constitutive and fundamentally political processes From the Civil War to the Progressive Era diverse political movements across tobacco s commodity chain drove state and market development creating the immense power and stifling poverty that defined tobacco s reconstruction The Political Reconstruction of American Tobacco 1862 1933 emphasizes the significance of the thousands of manufacturers whose interest groups shaped federal tax policy and in turn forged a powerful and effective internal revenue system the increasingly influential fertilizer producers and warehouse operators who determined tobacco s value and the crop scientists who sought to promote and rationalize US tobacco production As these actors reshaped tobacco s commodity chain they missed and even dismissed the interests of tobacco growers especially newly emancipated African Americans and smallholding whites throughout the South The ruling logic of tobacco s reconstructed political economy rationalized agrarian indebtedness justified low prices and intensified labor discipline on thousands of small farms In emphasizing these exclusions The Political Reconstruction of American Tobacco 1862 1933 reveals how nineteenth century state and economic development coincided with and even created rural poverty
