**National Bibliography** ,1996-12 Drink and Democracy Matthew Allen,2025-05-13 The nineteenth century spread of democracy in Britain and its colonies coincided with an increase in alcohol consumption and in celebratory public dinners with rounds of toasts British colonists raised their glasses to salute the Crown in rituals that asserted fraternal equality and political authority Yet these ceremonies were reserved for gentlemen leaving others notably women and Indigenous people on the political margins Drink and Democracy traces the development of democratic ideas in New South Wales through the history of public drinking and temperance As the colony transformed from a convict autocracy to a liberal democracy Matthew Allen argues public drinking practices shaped the character of the emerging political order The ritual of toasting was a symbolic display of restraint drunkenness without loss of self control that embodied the claim to citizenship of white male settlers Yet the performative sobriety of the temperance movement was also democratic a display of respectability that politicized its supporters around a rival vision of responsible citizenship Drink was a way to police the limits of the political realm The stigma of female drunkenness worked to exclude women from the public sphere while perceptions of heavy drinking among Aboriginal people cast them as lacking self control and hence unworthy of political rights Drink and Democracy reveals that long before the introduction of the franchise colonists in Australia imagined themselves as citizens Yet even as democracy expanded drink marked its limits Consuming Pleasures John Rainford,2010-05-14 Tracing the international and Australian history of both licit and illicit drug use this investigation combines the topic of drug use with analyses of political power the rise of the market and social issues It examines the way in which drug consumption is regulated in the era of global free trade by first looking at the start of the opium growing industry and the racist origins of drug laws Providing a social history of drug use through the lens of international politics market forces medicine and race

this discussion also considers the paradox of contemporary white Australian identity and an Australia as a nation of people whose per capita drug consumption often equals and surpasses that of most other nations      **Politics, Patronage and Public Works: 1842-1900** Hilary Golder, 2005 New South Wales government administration increased four fold during the first six decades of the twentieth century and with the growth in population came increasing community expectations This tells how the Public Service Board became responsible for employing staff for this burgeoning administrative corps
