Sir Joshua Reynolds The Subject Pictures:

Sir Joshua Reynolds Martin Postle, 1995-02-23 Sir Joshua Reynolds reputation today rests principally on his portraits his theoretical writings on art and his role as President of the Royal Academy Yet in his own day Reynolds subject pictures were among the most widely discussed British paintings of the century This is the first book to concentrate on this important aspect of Reynolds work Covering the period from 1760 to 1830 it shows the way in which these pictures were inextricably linked to Reynolds aims and practices as a painter and to the way in which he was perceived by his peers The Subject Pictures of Sir Joshua Reynolds, 1990 *Pictures-within-Pictures in Nineteenth-Century Britain* Catherine Roach, 2017-07-05 Repainting the work of another into one's own canvas is a deliberate and often highly fraught act of reuse This book examines the creation display and reception of such images Artists working in nineteenth century London were in a peculiar position based in an imperial metropole yet undervalued by their competitors in continental Europe Many claimed that Britain had yet to produce a viable national school of art Using pictures within pictures British painters challenged these claims and asserted their role in an ongoing visual tradition By transforming pre-existing works of art they also asserted their own painterly abilities Recognizing these statements provided viewers with pleasure in the form of a witty visual puzzle solved and with prestige in the form of cultural knowledge demonstrated At stake for both artist and audience in such exchanges was status the status of the painter relative to other artists and the status of the viewer relative to other audience members By considering these issues this book demonstrates a new approach to images of historic displays Through examinations of works by J M W Turner John Everett Millais John Scarlett Davis Emma Brownlow King and William Powell Frith this book reveals how these small passages of paint conveyed both personal and national meanings **Image, Identity and John Wesley** Peter S. Forsaith, 2017-08-18 The face of John Wesley 1703-91 the Methodist leader became one of the most familiar images in the English speaking and transatlantic worlds through the late eighteenth and nineteenth centuries After the dozen or so painted portraits made during his lifetime came numbers of posthumous portraits and moralising scene paintings and hundreds of variations of prints It was calculated that six million copies were produced of one print alone an 1827 portrait by John Jackson R A as frontispiece for a hymn book Illustrated by nearly one hundred images many in colour with a comprehensive appendix listing known Wesley images this book offers a much needed comprehensive and critical survey of one of the most influential religious and public figures of eighteenth century Britain Besides chapters on portraits from the life and after scene paintings and prints it explores aspects of Wesley's and Methodism's attitudes to art and the personality cult which gathered around Wesley as Methodism expanded globally It will be of interest to art historians as a treatment of an individual sitter and subject as well as to scholars engaged in Wesley and Methodist studies It is also significant for the field of material studies given the spread and use of the image on artefacts as well as on paper

Living with the Royal Academy Professor John Barrell,2013-12-16 Living with the Royal Academy directs attention to the textures of artists relationships with the Royal Academy in late eighteenth and early nineteenth century Britain This essay collection considers the Academy as a lived organism one whose most effective role was as a reference point around which artists operated in their relationships with each other and with artistic practice itself

Potter,2017-07-05 A novel investigation into art pedagogy and constructions of national identities in Britain and Ireland this collection explores the student master relationship in case studies ranging chronologically from 1770 to 2013 and geographically over the national art schools of England Ireland Scotland and Wales Essays explore the manner in which the Old Masters were deployed in education fuelled the individual creativity of art teachers and students were used as a rhetorical tool for promoting cultural projects in the core and periphery of the British Isles and united as well as divided opinions in response to changing expectations in discourse on art and education Case studies examined in this book include the sophisticated tradition of academic inquiry of establishment figures like Joshua Reynolds and Frederic Leighton as well as examples of radical reform undertaken by key individuals in the history of art education such as Edward Poynter and William Coldstream The role of Modern Masters like William Orpen Augustus John Gwen John and Jeff Wall is also discussed along with the need for students and teachers to master the realm of art theory in their studio based learning environments and the ultimate pedagogical repercussions of postmodern assaults on the academic bastions of the Old Masters

Writing the Lives of Painters Karen Junod,2011-01-27 Writing the Lives of Painters explores the development of artists biographies in eighteenth and early nineteenth century Britain During this period artists gradually distanced themselves from artisans and began to be recognised for their imaginative and intellectual skills The development of the art market and the burgeoning of an exhibition culture as well as the foundation of the Royal Academy of Arts in 1768 all contributed to redefining the rank of artists in society This social redefinition of the status of

artists in Britain was shaped by a thriving print culture Contemporary artists were discussed in a wide range of literary forms including exhibition reviews art critical pamphlets and journalistic gossip columns Biographical accounts of modern artists emerged in a dialogue with these other types of writing This book is an account of a new literary genre tracing its emergence in the cultural context of the late eighteenth and early nineteenth centuries It considers artistic biography as a malleable generic framework for investigation Indeed while the lives of painters in Britain did not completely abandon traditional tropes the genre significantly widened its scope and created new individual and social narratives that reflected and accommodated the needs and desires of new reading audiences Writing the Lives of Painters also argues that the proliferation of a myriad biographical forms mirrored the privileging of artistic originality and difference within an art world that had yet to generate a coherent British School of painting Finally by focusing on the emergence of individual biographies of British artists the book examines how and why the art historiographic model established by Giorgio Vasari was gradually dismantled in the hands of British biographers during the Romantic period
