

SOFT SKILLS

Training for Your Employees

Soft skills are personal attributes that enable someone to interact effectively and harmoniously with other people. They include things like communication, problem-solving, teamwork, and time management. While hard skills are essential for employees to possess, it's often the soft skills that make the difference between a good employee and a great one. That's why employers must provide soft skills training for their employees.

#1

TRAINING:

In-house Training

For employers who want to customize training to their needs. The more intimate setting benefits employees who may feel more comfortable learning in a smaller group.

Online Training

Convenient for employers and employees. Often more affordable than in-house training, it provides employees with the flexibility to learn at their own pace.

Classroom Training

For employees who learn best in a structured setting, this also allows for more interaction and collaboration.

#2

KPIs:

If employees are more productive after the training, it impacts them positively.

Employee Satisfaction

If employees are unhappy with the training, they're unlikely to stick with it or see any benefits.

Retention Rates

If employees leave the company at a higher rate after the training, likely, the exercise is not meeting their needs.

Productivity

If employees are more productive after the training, it impacts them positively.

Skills Training For Tomorrows Work Force
