Slave Raiders:

The Slave Raiders Kwakuvi Azasu, 2004 American Colonies Alan Taylor, 2002-07-30 A multicultural multinational history of colonial America from the Pulitzer Prize winning author of *The Internal Enemy* and *American Revolutions* In the first volume in the Penguin History of the United States edited by Eric Foner Alan Taylor challenges the traditional story of colonial history by examining the many cultures that helped make America from the native inhabitants from millennia past through the decades of Western colonization and conquest and across the entire continent all the way to the Pacific coast Transcending the usual Anglocentric version of our colonial past he recovers the importance of Native American tribes African slaves and the rival empires of France Spain the Netherlands and even Russia in the colonization of North America Moving beyond the Atlantic seaboard to examine the entire continent *American Colonies* reveals a pivotal period in the global interaction of peoples cultures plants animals and microbes In a vivid narrative Taylor draws upon cutting edge scholarship to create a timely picture of the colonial world characterized by an interplay of freedom and slavery opportunity and loss Formidable provokes us to contemplate the ways in which residents of North America have dealt with diversity *The New York Times Book Review*

Routes of Remembrance Bayo Holsey, 2008-06 Over the past fifteen years visitors from the African diaspora have flocked to Cape Coast and Elmina two towns in Ghana whose chief tourist attractions are the castles and dungeons where slaves were imprisoned before embarking for the New World This desire to commemorate the Middle Passage contrasts sharply with the silence that normally cloaks the subject within Ghana Why do Ghanaians suppress the history of enslavement And why is this history expressed so differently on the other side of the Atlantic *Routes of Remembrance* tackles these questions by analyzing the slave trade's absence from public versions of coastal Ghanaian family and community histories its troubled presentation in the country's classrooms and nationalist narratives and its elaboration by the transnational tourism industry Bayo Holsey discovers that in the past African involvement in the slave trade was used by Europeans to denigrate local residents and this stigma continues to shape the way Ghanaians imagine their historical past Today however due to international attention and the curiosity of young Ghanaians the slave trade has at last entered the public sphere transforming it from a stigmatizing history to one that holds the potential to contest global inequalities Holsey's study will be crucial to anyone involved in the global debate over how the slave trade endures in history and in memory

Buying Freedom Kwame Anthony Appiah, Martin Bunzl, 2018-06-05 If slavery is defined broadly to include bonded child labor and forced prostitution there are upward of 25 million slaves in the world today Individuals and groups are freeing some slaves by buying them from their enslavers But slave redemption is as controversial today as it was in pre Civil War America In *Buying Freedom* Kwame Anthony Appiah and Martin Bunzl bring together economists anthropologists historians and philosophers for the first comprehensive examination of the practical and ethical implications of slave redemption While recognizing the obvious virtue of the desire to buy the freedom of slaves the contributors ask difficult and troubling questions

Does redeeming slaves actually increase the demand for and so the number of slaves And what about cases where it is far from clear that redemption will improve the material condition or increase the real freedom of a slave

Buying Freedom includes essays by the editors and by Dean Karlan and Alan Krueger Carol Ann Rogers and Kenneth Swinnerton Arnab Basu and Nancy Chau Stanley Engerman Jonathan Conning and Michael Kevane Jok Madut Jok Ann McDougall Lisa Cook Margaret Kellow John Stauffer and Howard McGary

Ghost Singer Anna Lee Walters, 1994-12 Indian remains in the Smithsonian cause ghosts to haunt torment and murder researchers even as they themselves are tormented by the items in the museum's collection

Many Middle Passages Emma Christopher, Cassandra Pybus, Marcus Rediker, 2007-09-03 Extends the concept of the Middle Passage to encompass the expropriation of people across other maritime and inland routes No previous book has highlighted the diversity and centrality of middle passages voluntary and involuntary to modern global history Kenneth Morgan author of *Slavery and the British Empire* This volume extends the now well established project of Atlantic World Studies beyond its geographic and chronological frames to a genuinely global analysis of labour migration It is a work of major importance that sparkles with new discoveries and insights Rick Halpern co editor of *Empire and Others* British Encounters with Indigenous Peoples 1600-1850

Mfecane Aftermath Carolyn Hamilton, Thomas Dowson, Elizabeth Eldredge, Norman Etherington, Jan-Bart Gewald, Simon Hall, Guy Hartley, Margaret Kinsman, Andrew Manson, John Omer-Cooper, Neil Parsons, Jeff Peires, Christopher Saunders, Alan Webster, John Wright, Dan Wylie, 1995-01-01 The idea that the period of social turbulence in the nineteenth century was a consequence of the emergence of the powerful Zulu kingdom under Shaka has been written about extensively as a central episode of southern African history Considerable dynamic debate has focused on the idea that this period the mfecane left much of the interior depopulated thereby justifying white occupation One view is that the time of troubles owed more to the Delagoa Bay Slave trade and the demands of the labour hungry Cape colonists than to Shaka's empire building But is there sufficient evidence to support the argument The Mfecane Aftermath investigates the very nature of historical debate and examines the uncertain foundations of much of the previous historiography

[Age Norms and Intercultural Interaction in Colonial North America](#) Jason Eden, Naomi Eden, 2017-05-24 This interdisciplinary study examines how age norms shaped the experiences of Europeans Native Americans and African Americans in colonial North America exploring how diverse population groups conceptualized the human life course and how they adhered to culturally specific sets of beliefs about the young and old Utilizing evidence drawn from a variety of secondary and primary sources the authors also show that as various cultural groups interacted in colonial North America their views of specific age cohorts evolved and clashed in important ways Although age is a category of analysis often overlooked by scholars this book demonstrates that it was pivotal for everyone who lived in early North America including the various Native American tribes that inhabited the eastern part of the continent It also addresses the different ways that European colonists experienced the human life course in three

geopolitical regions New England the Middle Colonies and the South It further explains how age norms played a significant role in both the development of racialized slavery in North America and in relationships between Europeans and Native Americans This study reveals that even within the uneven power dynamic often present during colonial encounters African American and Native American attitudes and practices related to human aging proved resilient and influential Overall by examining how early Americans viewed and treated children youths and older adults this book is one of the first to systematically explore the deep historical roots of age norms in territories that would eventually become a part of the United States Many of the beliefs about human aging that emerged during the colonial period continue to shape approaches to childrearing education health care and numerous other issues Furthermore this study in addition to providing unique and valuable historical information offers readers alternative ways of understanding and approaching the human life course making it relevant to both policymakers and scholars working in a variety of fields *Fight for Freedom* Moussa

Traore, Tony Talburt, 2017-10-04 Although there have been a number of studies on Black resistance very few of these have focused exclusively on such a wide range of resistance campaigns and strategies within a single volume One of the central arguments of this study is that from as early as the sixteenth century when Europeans attempted to systematically exploit Africans Black people have engaged in a variety of organised and sustained resistance campaigns to assert their independence and identity This book examines some of the different strategies employed by Black people in Africa and the Diaspora in response to European domination and exploitation Drawing upon research from scholars based at the University of Cape Coast in Ghana and the University of the West Indies Jamaica this collection of original essays covers the academic disciplines of African and Caribbean history literature politics and psychology Despite these different approaches the consistent theme throughout centres on the strategies employed by Black people to resist European domination and oppression by fighting for their freedom at every possible opportunity whether they were in Africa Britain or the Caribbean
