Haight, 2005-03-17 Ecclesiology from below as it operates in this work is directed to history it moves through the actual church of history to ecclesiology or to an understanding of the church both as it is and as it should be In the first volume that passage was fairly explicit because comprehensive ecclesiologies in our sense did not exist In this volume ecclesiology itself becomes much more directly the subject matter of the book but without losing sight of concrete history and the degree to which these ecclesiologies are historically conditioned Put somewhat differently the main goal of this comparative ecclesiology is not simply to lay down one after another different ecclesiologies that emerged over the last five hundred years although that describes the book with empirical accuracy Its larger intent is to show the richness vitality and creativity of the whole church as it moves through history adjusting to new times places and cultures Parish Ministry for Returning Catholics Patricia Barbernitz, 1993 An informative caring and community focused guide for parishes embarking on a ministry for returning Catholics **Preaching and Culture in Latino Congregations** Kenneth G. liberation theology inaugurated a new era in the global theological landscape      Do Small Groups Work?
