**Women's Empowerment and Microcredit Programmes in India** Annabel Dulhunty,2023-08-21 Women s Empowerment and Microcredit Programs in India examines the value of microcredit based self help groups SHGs for women in India and provides an alternative model for women s empowerment programming The microcredit sector continues to boom globally with private investors governments and multilateral financial institutions all investing substantial amounts in self help group programming

Nowhere is this more evident than in India where the industry has further been deregulated in recent years. Much of the rationale for increased investment in microcredit is based on the idea that it improves women's empowerment. But is this true? Researchers have fiercely debated the value of microcredit programs for women, with some arguing that it is exploitative and others contending that it is empowering. This book provides new insights into women's empowerment and microcredit programming, elaborating on the themes of power, dignity, mobility, and solidarity. It takes a nuanced view of the complexities surrounding self-help group programming and women's empowerment and argues that the model of microcredit self-help group programming is key to whether it helps or harms women. By focusing on the experiences and voices of microcredit self-help group members in West Bengal, India, this book elaborates on the idea of microcredit models existing on a continuum from smart economics to more holistic feminist versions of programming. It will be of interest to scholars in development studies, anthropology, sociology, gender studies, and public policy, and Asian Studies.

**The Women's National Indian Association** Valerie Sherer Mathes, 2015-04-15. The Women's National Indian Association formed in response to the chronic conflict and corruption that plagued relations between American Indians and the U.S. government has been all but forgotten since it was disbanded in 1951. Mathes's edited volume, the first book to address the history of the WNIA, comprises essays by eight authors on the work of this important reform group. The WNIA was formed in 1879 in reaction to the prospect of opening Oklahoma Indian Territory to white settlement. A powerful network of upper and middle class friends and associates, the group soon expanded its mission beyond prayer and philanthropy as the women participated in political protest and organized successful petition drives that focused on securing civil and political rights for American Indians. In addition to discussing the association's history, the contributors to this book evaluate its legacies both in the lives of Indian families and in the evolution of federal Indian policy. Their work reveals the complicated regional variations in reform and the complex nature of Anglo women's relationships with indigenous people.

**Becoming Young Men in a New India** Shannon Philip, 2022-08-25. *Becoming Young Men in a New India* tells the gendered story of a changing India through the lives of its young middle class men. Through time spent ethnographically hanging out with young men in gyms, bars, clubs, trains, and gay cruising grounds in India, this book critically reveals Indian men's violence towards women in various city spaces and also shows the many classed and masculine entitlements and challenges that they experience. The book lays bare the often secretive and hidden social worlds of young Indian men and critically analyses the impact young men's actions and identities have not just for themselves but for the many women they encounter. In this way, it puts forward a critical queer feminist perspective of men and masculinities in postcolonial India where the politics of class, gender, sexuality, violence, and urban spaces come together.
