## Smart Globalization:

*Smart Globalization* Andrew Smith, Dimitry Anastakis, 2014-01-01 Today's globalization debates pit neoliberals who favour even deeper integration into the global economy against neo mercantilists who call for a relatively selective approach to globalization and the return to more interventionist industrial policies Both sides claim to have the facts on their side Inspired by the work of economists Ha Joon Chang and Dani Rodrik editors Andrew Smith and Dimitry Anastakis bring together essays from both historians and economists in this collection to test claims that wealth comes from either protectionism or free trade With empirical research that spans more than a century of Canadian history *Smart Globalization* demonstrates that Canada's success stemmed neither from complete openness to globalization or policies of isolation and self sufficiency

**Smart Globalization** Anil K. Gupta, 2003-02-28 *Smart Globalization* is a compendium of leading edge thinking on global strategy first published in the acclaimed MIT Sloan Management Review The central premise underlying this book is that globalization can be a double edged sword The global or globalizing firm has the potential to reap several types of benefits such as the vast potential of a much larger market arena opportunities to capture scale and location based cost efficiencies and exposure to a multiplicity of new product and process ideas However globalization also exposes the firm to numerous strategic and organizational challenges emanating from a dramatic increase in diversity complexity and uncertainty external as well as internal to the firm How managers address these challenges determines whether globalization yields competitive advantage or disadvantage and makes the company stronger or weaker *Smart globalization* is the ability to capture the benefits and minimize the costs and risks *Smart Globalization's* expert contributors<sup>3</sup> 4 leaders in the design of winning global strategies and in the creation of effective global networks<sup>3</sup> 4 include David J Arnold Christopher A Bartlett Julian M Birke inshaw J Stewart Black Joseph N Fry Sumantra Ghoshal Vijay Govindarajan Hal B Gregersen Anil K Gupta Stuart L Hart W Chan Kim Bruce Kogut David L Levy Ren e A Mauborgne Allen J Morrison Mark B Milstein Das Narayandas John A Quelch Gordon Swartz Stephen E Weiss and George S Yip

*Smart Globalization* Andrew Smith, Dimitry Anastakis, 2014-02-24 Today's globalization debates pit neoliberals who favour even deeper integration into the global economy against neo mercantilists who call for a relatively selective approach to globalization and the return to more interventionist industrial policies Both sides claim to have the facts on their side Inspired by the work of economists Ha Joon Chang and Dani Rodrik editors Andrew Smith and Dimitry Anastakis bring together essays from both historians and economists in this collection to test claims that wealth comes from either protectionism or free trade With empirical research that spans more than a century of Canadian history *Smart Globalization* demonstrates that Canada's success stemmed neither from complete openness to globalization or policies of isolation and self sufficiency

*The Rise Of The New Economic Powers And The Changing Global Landscape* Haico Ebberts, 2022-12-19 This book explores the catching up process of a group of large emerging markets the New Economic Powers This process is extremely robust and should be considered

as the defining trend of our age resulting in a pivotal change in world economics and politics The outcome is that the West cannot dominate the world as it did in the previous 200 years Today's world is pluralistic and the larger emerging markets are becoming increasingly influential That is the new reality which at times caused and will cause further discomfort and uncertainty in the West In the eight chapters the viewpoints on globalization of nine New Economic Powers are discussed Each chapter is an essential element in understanding the process of globalization and the role the New Economic Powers play in it Essentially their views are guided by a fundamental different look about the role of the market and the government in society compared to what we see in the West The New Economic Powers understand the power of the market to create prosperity but at the same time emphasize the need for government interference This delicate balance is particularly visible with respect to their international trade and investment policies which bring them in conflict with Western countries and multilateral institutions such as the WTO and the IMF The book helps the reader to understand the fundamental choices made by policymakers in the New Economic Powers

**Globalization and Culture** Jan Nederveen Pieterse, 2019-05-17

Now updated with new chapters on culture and on populism this seminal text disputes the view that we are experiencing a clash of civilizations as well as the idea that globalization leads to cultural homogenization Instead Jan Nederveen Pieterse argues that we are witnessing the formation of a global m lange culture through processes of cultural mixing or hybridization From this perspective on globalization conflict may be mitigated and identity preserved albeit transformed In a new chapter on China the author focuses on the key issue of agency and power in hybridization Throughout the book offers a comprehensive treatment of hybridization arguments and in discussing globalization and culture problematizes the meaning of culture This historically deep and geographically wide approach to globalization is essential reading as we face the increasing spread of conflicts bred by cultural misunderstanding

**The Crisis of Globalization** Patrick

Diamond, 2018-11-29 In recent years the effects of economic openness and technological change have fuelled dissatisfaction with established political systems and led to new forms of political populism that exploit the economic and political resentment created by globalization This shift in politics was evident in the decision by UK voters to leave the European Union in June 2016 the November 2016 election of Donald Trump to the presidency of the United States as well as the rise of populist movements on left and right throughout much of Europe To many voters the economy appears to be broken Conventional politics is failing Parties of the left and centre left have struggled to forge a convincing response to this new phase of globalization in the aftermath of the 2008 crisis This book examines the challenges that the new era of globalization poses for progressive parties and movements across the world It brings together leading thinkers and experts including Andrew Gamble Jeffry Frieden and Vivien Schmidt to debate the structural causes and political consequences of this new wave of globalization

**Globalization in Crisis** Barry K. Gills, 2013-09-13 This book analyses the present global financial and economic crisis the most severe in nearly a century and a wider set of multiple and converging crises with aspects and

repercussions that go well beyond the current economic climate Written by some of the world's leading international scholars in the field of Globalization studies and related disciplines this important collection addresses numerous key aspects of the relationship between Globalization and global crises past present and future It sheds new light and understanding on the concept and theory of Globalization and of crisis The authors explore such issues as global finance and financial regulation neoliberal ideology and policy the crisis of globalization the decline of Western hegemony world systemic crisis the moral crisis of Western capitalism environmental and climate change crises world order hyper violence and the international system a crisis of the global modern and a global civilisational and hostpric crisis the rise of the global South the historical dialectics of capital and social responses to crisis the future of capitalism and the prospects for transformative alternatives This book was published as a special issue of Globalizations

**The Globalization Paradox** Dani Rodrik, 2012-05-17 For a century economists have driven forward the cause of globalization in financial institutions labour markets and trade Yet there have been consistent warning signs that a global economy and free trade might not always be advantageous Where are the pressure points What could be done about them Dani Rodrik examines the back story from its seventeenth century origins through the milestones of the gold standard the Bretton Woods Agreement and the Washington Consensus to the present day Although economic globalization has enabled unprecedented levels of prosperity in advanced countries and has been a boon to hundreds of millions of poor workers in China and elsewhere in Asia it is a concept that rests on shaky pillars he contends Its long term sustainability is not a given The heart of Rodrik's argument is a fundamental trilemma that we cannot simultaneously pursue democracy national self determination and economic globalization Give too much power to governments and you have protectionism Give markets too much freedom and you have an unstable world economy with little social and political support from those it is supposed to help Rodrik argues for smart globalization not maximum globalization

*Capitalism at the Crossroads* Stuart L. Hart, 2007-07-18 Capitalism at the Crossroads is built on strong theoretical underpinnings and illustrated with many practical examples The author offers a pioneering roadmap to responsible macroeconomics and corporate growth Clayton Christensen Professor of Business Administration Harvard Business School and author of *The Innovator's Dilemma* I hope this book will be able to influence the thought processes of corporations and motivate them to adapt to forthcoming business realities for the sake of their own long term existence Besides business leaders this is a thought provoking book for the readers who are looking for solutions to capitalism's problems Muhammad Yunus Founder and Managing Director Grameen Bank Bangladesh and 2007 Nobel Peace Prize recipient Capitalism at the Crossroads is a practical manifesto for business in the twenty first century Professor Stuart L. Hart provides a succinct framework for managers to harmonize concerns for the planet with wealth creation and unambiguously demonstrates the connection between the two This book represents a turning point in the debate about the emerging role and responsibility of business in society C K Prahalad Ross School of Business University of Michigan co author of *Competing for the Future* and author of *The Fortune at the Bottom of the Pyramid* Stuart Hart was there at the beginning Years ago when the term sustainability had not yet reached the business schools Stuart Hart stood as a beacon glowing in the umbrage It is clear commerce is the engine of change design the first signal of human intention and global capitalism is at the crossroads Stuart Hart is there again this time lighting up the intersection William McDonough University of Virginia co author of *Cradle to Cradle* Professor Hart is on the leading edge of making sustainability an understandable and useful framework for building business value This book brings together much of his insights developed over the past decade Through case studies and practical advice he argues powerfully that unlimited opportunities for profitable business growth will flow to those companies that bring innovative technology and solutions to bear on some of the world's most intractable social and environmental problems Chad Holliday Chairman and CEO DuPont Capitalism at the Crossroads

clearly reveals the essence of what sustainability means to today's business world. Hart's analysis that businesses must increasingly adopt a business framework based on building sustainable value speaks to the entire sustainability movement's relevance. Sustainability is more than today's competitive edge; it is tomorrow's model for success.

Don Pether, President and CEO of Dofasco Inc., says Stuart Hart has written a book full of big insights painted with bold strokes. He may make you mad. He will certainly make you think.

Jonathan Lash, President of The World Resources Institute, says it is a must read for every CEO and every MBA.

John Elkington, Chairman of SustainAbility, says this book provides us with a vast array of innovative and practical ideas to accelerate the transformation to global sustainability and the role businesses and corporations will have to play therein.

Stuart Hart manages to contribute in an essential way to the growing intellectual capital that addresses this topic. But beyond that, the book will also prove to be a pioneer in the literature on corporate strategy by adding this new dimension to the current thinking.

Jan Oosterveld, Professor at IESE Business School, Barcelona, Spain, and Member of the Group Management Committee at Royal Philips Electronics, says *Capitalism at the Crossroads* captures a disturbing and descriptive picture of the global condition. Dr. Hart constructs a compelling new corporate business model that simultaneously merges the metric of profitability along with societal value and environmental integrity. He challenges the corporate sector to take the lead and to invoke this change so that the benefits of capitalism can be shared with the entire human community worldwide.

Mac Bridger, CEO of Tandus Group, says Stuart L. Hart makes a very important contribution to the understanding of how enterprise can help save the world's environment.

Crucial reading.

Hernando de Soto, President of The Institute for Liberty and Democracy and author of *The Mystery of Capital*, says Stuart Hart's insights into the business sense of sustainability come through compellingly in *Capitalism at the Crossroads*. Any businessperson interested in the long view will find resonance with his wise reasoning.

Ray Anderson, Founder and Chairman of Interface Inc., says this stimulating book documents the central role that business will play in humanity's efforts to develop a sustainable global economy. Professor Hart presents an attractive vision of opportunity for those corporations that develop the new technologies, new business models, and new mental frames that are essential to a sustainable future.

Jeffrey Lehman, Former President of Cornell University, says the people of the world are in desperate need of new ideas if global industrial development is ever to result in something other than the rich getting richer and the poor getting poorer with nature and potentially all of us suffering the collateral damage.

Few have contributed more to meeting this need over the past decade than Stuart Hart by helping to illuminate the potential role for business and new thinking in business strategy in the journey ahead.

*Capitalism at the Crossroads* challenges, provokes, and no doubt will stimulate many debates, which is exactly what is needed.

Peter Senge, Massachusetts Institute of Technology, Chairperson of the Society for Organizational Learning and author of *The Fifth Discipline: The Art and Practice of The Learning Organization*, says this is a new foreword by Al Gore, Brand New, Second Edition, Completely Revised with up-to-the-minute trends and lessons learned, new and updated case studies, the latest corporate responses to climate change, energy, and terrorism. Global capitalism stands at a

crossroads facing terrorism environmental destruction and anti globalization backlash Today s global companies are at a crossroads too searching desperately for new sources of profitable growth Stuart L Hart s *Capitalism at the Crossroads* Second Edition is about solving both of those problems at the same time It s about igniting new growth by creating sustainable products that solve urgent societal problems It s about using new technology to deliver profitable solutions that reduce poverty and protect the environment It s about becoming truly indigenous to all your markets and avoiding the pitfalls of first generation greening and sustainability strategies Hart has thoroughly revised this seminal book with new case studies trends and lessons learned including the latest experiences of leaders like GE and Wal Mart You ll find new insights from the pioneering BoP Protocol initiative in which multinationals are incubating new businesses in income poor communities You ll also discover creative new ways in which corporations are responding to global warming and terrorism More than ever this book points the way toward a capitalism that s more inclusive more welcome and far more successful for both companies and communities worldwide
